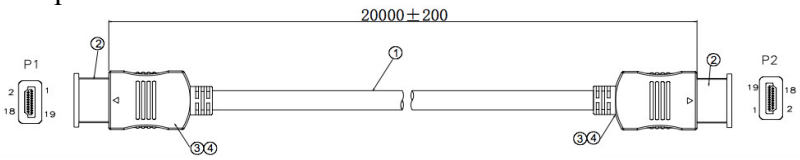
HIGH SPEED HDMI CABLE
20M 24AWG

APPLICATION

❖ High-definition multimedia interface (HDMI) cables are assemblies of audio and video cables that are used to transmit digital audio/video signals. They are used to connect digital devices such as set-top boxes, personal computers, and camcorders to compatible computer monitors, video projectors, and digital televisions.

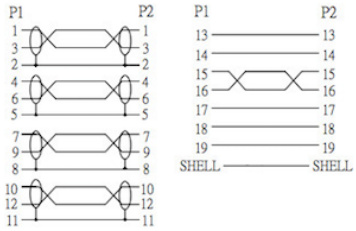
PRODUCT FACTS

❖ High Pure oxygen-free copper conductors deliver the clearest audio/video signal
❖ HDMI V1.3 24K GOLD Coupling guaranteed that connects the part best signal transmission
❖ High-desity triple metal shielding rejects outside interference
❖ Supports 1080P+ comprehensively the high clear resolution
❖ Highest transmission speed achieves 10.2Gbps
❖ Available in 5M, 10M, 15M, 20M



PRODUCT CODE

❖ HDMI-5M
❖ HDMI-10M
❖HDMI-15M
❖**HDMI-20M**



TECHNICAL DATA

Inner Conductor		Copper ; dia.(approx) 0.5mm
Inner Jacket		PE
Outer Jacket		PVC 55P; Black
Speed Transmission		Ultra-high speed full HD1080P+ >10.2GBps
Colour Gradation		12-Bit
High Refresh Rate		120 Hz
Inssess Suround		5.1/7.1 Audio
Maximun Operating Voltage		300V DC/5s
Insulation Resistance		5M ohm
Contact Resistance		5 ohm
Connector type		HDMI 19P Male
Environment	**Temperature**	-10℃ to +80℃
	Humidity	0 to 95%
