PIPE CUTTERS

These are professional tools, essential for the manual cut of plastic pipes up to Ø 315 mm.
The **TC 108, T1, TU 75, TU 140, T3** and **T4** pipe cutters are made with the very best alloys, and are very manageable and practical to use.
The pipe cutters can be fitted with various special blades with appropriate cutting heights and penetration capacities to cut pipes of different materials.
The **TC 108** and **T1** pipe cutters (with special blades) can cut Copper (Cu) and multilayer (PEx/Al,PPr/Al, etc.) pipes.
