

3M Science.
Applied to Life.™

Perfect lifestyle with
pure and clean drinking water
from **3M™ Water Filter**

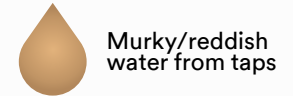

Cleaner and safer water

There is a need for cleaner and safer water on a global scale because water is critical to healthier living. 3M works towards ensuring that the water you drink, is clean for consumption. The safety of the water we drink is our priority.

Do you recognize these 3 signs?

Murky/reddish water from taps

Odd scented and tasting water

Sediments in water

At 3M, we have technologically-advanced products and solutions to solve the range of residential water issues.

Why choose 3M?

Applies the right Science to safe and healthy living.

Adheres to international standards and protocol for better water quality.

Inventions that make cartridge replacements quick and easy.

3M water filtration. Trust your water.

We take our science seriously, and we apply it to our water filters so that the water you drink is cleaner and ready for consumption.

Over the years, we've combined innovation and technologies in applied fields to solve the toughest water issues. This includes:

Biopharma
Filtration solution for optical and biopharma industry.

Process Filtration
Caters to a wide range of markets including electronics, paint & coatings, petrochemical/chemical and oil & gas processing.

Food Service
For the use in restaurants and various F&B outlets.

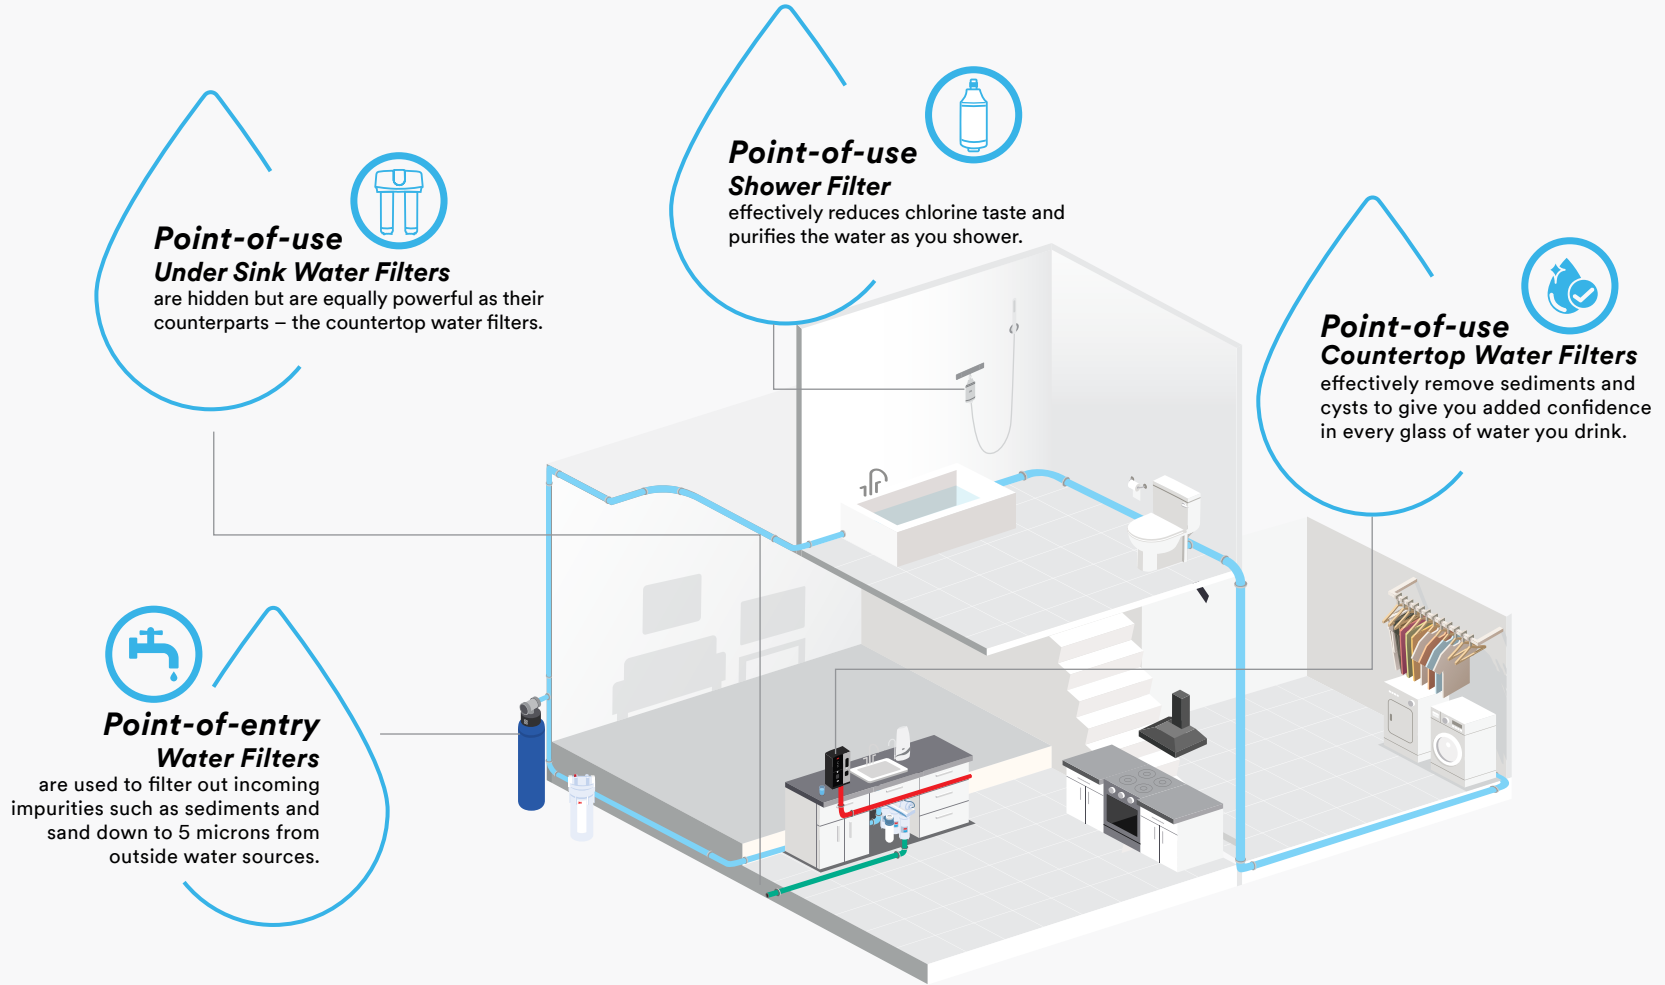

Residential Filtration
With all of our experience, 3M delivers high quality filtration products for a variety of residential applications to provide families with cleaner and safer water for home use.

3M Water Filtration Solution

Every drop matters to us and we believe everyone has the right to safe and clean water. Hence, 3M™ Water Filters are high quality and reliable products designed with science to solve the toughest water problems, providing consumers peace of mind.

3M™ Under Sink Water Filter FM1500-B

The point-of-use filter is a substitute for bottled water. With 0.2 micron size, it reduces asbestos, lead, cysts, chlorine taste and odor, common water-borne bacteria, algae, mold spores and sediment as a point-of-use filter.

Easy access to direct drinking water with dedicated faucet.

Compact design saves spaces

Higher capacity (5678 liters)

Sanitary Quick Change
Allows easy cartridge change-out.

No mercury content.

NSF Tested and certified by NSF International against NSF/ANSI Standards 42 and 53 for reduction of claims specified on the Performance Data Sheet

 41.6cm (H) x 7.9cm (W) x 7.9cm (D)

Reduces:

99.99% of

- Parasitic protozoan cysts
- Common waterborne bacteria (E.Coli)
- Algae
- Mold Spores

Chlorine Taste

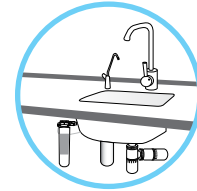

Sediment

Asbestos

Heavy Metal & Rust

Installation Method

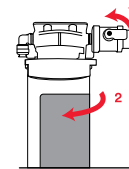

Under Sink Installation

Space saving and easy access to direct drinking water with dedicated faucet.

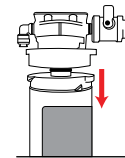

Sanitary Quick Change Filter Cartridge

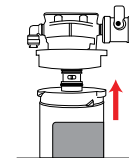

Patented SQC design, 10 seconds to change the cartridge.

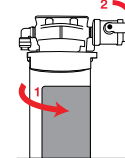

Step 1
Turn filter cartridge clockwise

Step 2
Remove filter cartridge

Step 3
Install new filter cartridge

Step 4
Turn filter cartridge counter clockwise until it stops

3M™ Whole House Filtration AP902

Removes sediments, particulate, sand and rust down to 5 microns (nominal) (10 times finer than a strand of hair)* to provide cleaner water right from the point-of-entry for whole house water usage.

Superior filtration

For cleaner and clearer water.

Compact design

Fits perfectly even in limited spaces.

High flow rate

(up to 75.7 liters per minute)

Does not interrupt the water flow rate in your house.

Easy maintenance

Allows easy cartridge change-out with no backwash needed.

Components certified by NSF International with NSF/ANSI Standard 42

58cm (H) x 10cm (W) x 10cm (D)

3M™ Whole House Filtration System AP902

Maximum capacity in minimal space. Packing 27 sq. feet of pleated filtration media into a compact cylindrical water filter, this product filters out sand and sediment from the water entering your home.

Non-woven pleat filtration media

Filters sediments, particulate, sand and rust down to 5 microns (nominal)

Condominium /
Apartment Installation

Landed Property Installation

* A strand of hair has a diameter of 50 microns.

3M™ Drinking Water Filter DWS2500T-CN

Fitted with pre-activated carbon block that filters down to 0.2 microns (250 times finer than a strand of hair)*, 3M™ Drinking Water Filter DWS2500T-CN is a powerful water filter that filters more but with the benefit of saving countertop space.

Integrated Membrane Pre-Activated Carbon
Reduces 99.99% of waterborne bacteria and cysts.

Clutter-free design
Hidden under the sink, taking up less space on your countertop.

Cartridge life indicator
Monitors cartridge lifespan. No electricity required, operated by 3 units of AA Alkaline batteries.

Sanitary Quick Change
Allows easy cartridge change-out.

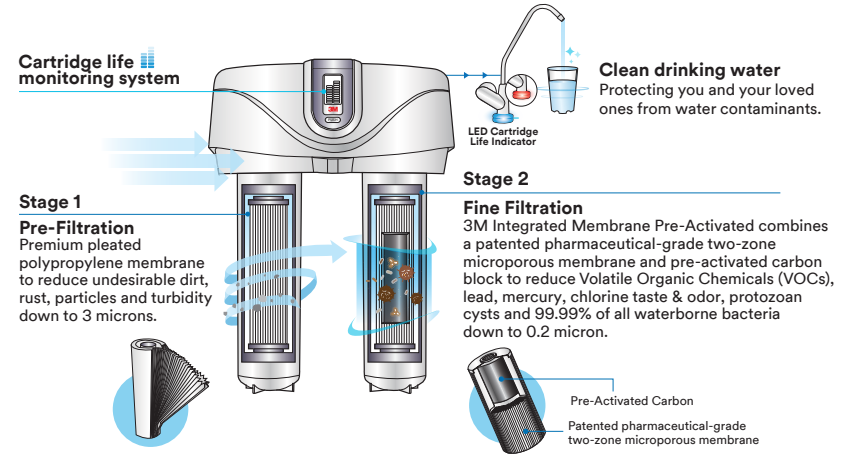

NSF-certified
Tested & certified by a reputable organizations standard.

 40cm (H) x 30cm (W) x 15cm (D)

* Estimation a strand of hair diameter is 50 microns.

3M Filtration Technology

 **Tested & certified by NSF/ANSI Standards 42 & 53.**

 **Sanitary Quick Change System. Change cartridge easily in less than 10 seconds.**

 **Special blend media inhibits bacteria growth in the filter.**

3M™ Filtered Water Dispenser HCD-2

Intelligently combines carbon and UV filtration technology to remove harmful contaminants and deactivates 99.9% of pathogenic bacteria* and virus**, doubling the protection in every drop.

Inhibits bacteria growth

Special blend media inhibit bacteria growth in the filter media.

Easy maintenance

Change cartridge easily in less than 10 seconds.

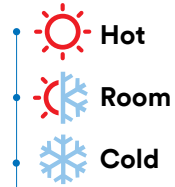

No more scaling

Reduces scale formation on heating pan for consistent boiling performance.

Instant boiling

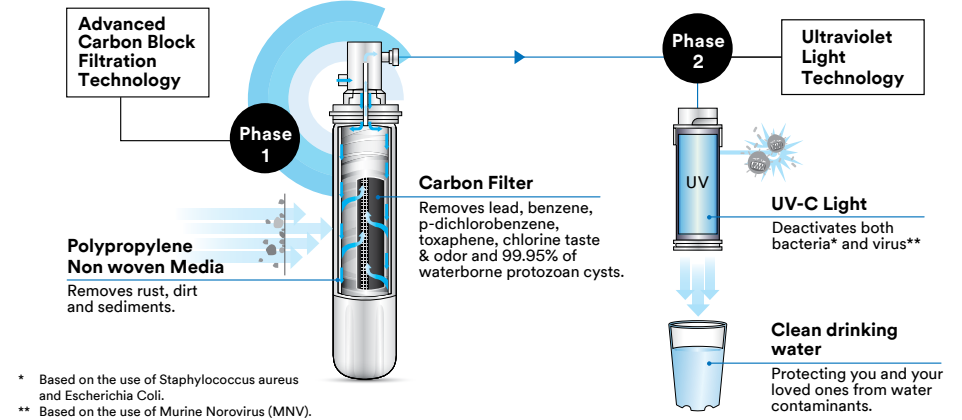

Every cup of hot water is freshly boiled in less than 90 seconds.

 47.4cm (H) x 29cm (W) x 49.7cm (D)

* Based on the use of Staphylococcus aureus and Escherichia Coli
** Based on the use of Murine Norovirus (MNV)

Dual technology for exceptionally clean water.

Beautifully designed to save space with hot, cold and room temperature filtered water at your finger tips.

Storage Tank	Total Storage Tank Capacity - 8.2 liters Room Temperature Water - 4.6 liters Cold Water - 3.0 liters Hot Water - 0.6 liters

Sanitary Quick Change System. Change cartridge easily in less than 10 seconds.

Providing trust in every drop.

From protecting your health to providing convenience, 3M is driven to apply the right Science to discover new ways to empower safe and healthy living for your home.

I'm a mother of 3 and my eldest son was diagnosed with congenital heart disease. To me, clean water improves my family well-being and hence, I choose 3M because the water filter reduces 99.99% of waterborne bacteria and cysts. This ensures the water we drink is healthy, giving me the confidence I need in every drop.

Karen Pang

Ever since we shifted to our condo, I was looking for a new set of water filters for my family that are both powerful and compact. I had my eyes on 3M mainly because of the international certification (NSF) and the hassle-free design (no backwash and easy to maintain). I trust the brand and will definitely recommend 3M to others too.

Syed Hamadah Othman

My son developed eczema when he was 3 months old. Doctor said that the water he drank could contribute to this. Hence, I researched online for water filters I could trust and I chose 3M because it is NSF-certified. After 2-3 months of using it, my son's eczema cleared. This reassured me of my choice for 3M water filters.

Mohd Fairus bin Mustapha

We stay in a matured neighbourhood and the pipes are getting old and rusty. Stains on clothes and sediments in our water were rather unpleasant. With recommendations from our friends, we installed 3M water filters and we're happy that our water issues are resolved.

Dr. Akbal
