

## INTRODUCTION

**Hon Marine** was founded in 2011 recently to meet the vast demands of the Oil & Gas and Shipping Industry within the Asia region. Our Group of Managers, Engineers, Foremen and Technicians are qualified personnel with experiences from reputable shipyards and engineering firms. We specialized in steel and piping fabrications/repair works, ship repairs on afloat/on voyage/alongside berth, floating crane services, supply, erection & dismantle of staging. Together, we make an efficient team to serve you with your requirements and to your expectations!

## VISION

To be an established ship repair and fabrication Company in South East Asia

## MISSION

- To complete repair/fabrication works timely and minimize downtime for our Client
- To ensure zero (0%) accident on every project
- To ensure repair/fabrication works are carried out responsibly without harming the surrounding environment
