KEYLESS TOOL CONTROL

Keyless Entry system secures your tool box, allowing you to control and limit access without the hassle of keys

Product Code	Description
WTC55RC11	55" Keyless Entry Box
WTC40RC7	40" Keyless Entry Box
WTC26RC7	26" Keyless Entry Box

Features

- Keyless entry system offers badge, keypad entry, and at the box programming for up to 3,000 users
- Eliminates the hassle of keys to open tool boxes.
- Battery power makes Keyless Tool Control ideal for environments where tool boxes are on the move.
- Powered by 6 D-cell batteries (not included) or power cord
- Single set of batteries can last up to six months depending upon environment
- Grants access to tool boxes with three access methods:
  - Keypad PIN entry only
  - Proximity ID card entry
  - Dual Credential: Proximity ID card and keypad PIN entry
- Pre-assembled access unit sits on top of the box -
  - Implement by simply installing batteries and setting up access credentials.
- LED lights indicate if box is opened or closed
- Last Access indicator displays who last accessed the box.
- Keyless entry system can be networked with Lock View® software
