'NEW LOOK'

**METALTECH AND AUTOMEX 2019
OFF TO ROUSING START AT MITEC**

Attendees and participants thrilled by new facilities, more convenient access, upgraded amenities and huge halls with never-before-seen live installations

The 25th edition of METALTECH had an inspiring first day as it celebrated its inaugural event at Malaysian International Trade and Exhibition Centre (MITEC) yesterday.

The much anticipated move to a more modern and innovative exhibition centre drew great reviews from participants and attendees alike, with plenty of praise for the more convenient layout, larger spaces (including the largest pillar-less hall in Malaysia), greater parking accessibility, relaxing rest lounges, more food options and plenty of other upgrades compared to PWTC.

Plenty of exciting activities remain in store as METALTECH and AUTOMEX move into their second day here at MITEC. Along with the Opening Ceremony in the morning, the Exhibitor Night will take place this evening at the MySpace Ballroom on Level 3 from 7pm onwards. With METALTECH celebrating

its 25th Anniversary this year in some style, dinner guests can expect plenty of thrilling entertainment throughout the night.

Meanwhile, all Malaysian companies involved with Automation or the Machinery & Equipment industries should pay extra attention to our Seminar Programme today. We have a comprehensive series of talks that have been specifically designed to educate Malaysians on the latest programmes and incentives provided by the government in line with the new Industry4WRD national policy.

Also, don't forget to check out the largest and most expansive Live Demonstration that we have ever produced at Hall 2 on Level 1. It involves eight different companies and showcases various Industry 4.0 applications that can improve your production and manufacturing capabilities. We will be giving out free mystery gifts to visitors today, so make sure you visit

the live demonstration area as soon as you can so you don't miss out!

Finally, be sure to check out our Facebook page for the latest updates, uploads of our daily photos and other information and resources that will help enhance your experience here at METALTECH and AUTOMEX. Follow us at www.facebook.com/MetaltechMy.

We hope all of you have a thrilling and successful Day 2 of METALTECH and AUTOMEX today!

MALAYSIAN PRODUCTS IN THE LIMELIGHT

MATRADE INTERNATIONAL SOURCING PROGRAMME CONTINUES TO REAP REWARDS FOR CAPABLE MALAYSIAN COMPANIES

Having received a great response last year, we are delighted to once again be working with MATRADE to help enhance opportunities for Malaysians. MATRADE's mission to promote Malaysia's exports has enabled many local companies to carve new frontiers in global markets and our collaboration with MATRADE has brought plenty of prospective buyers to METALTECH once again.

It has always been our mission to provide exposure for capable Malaysian companies on the international stage, so please take full advantage of this opportunity if your business is seeking overseas buyers. Together, let's make the phrase 'Made-In-Malaysia' synonymous with excellence, reliability and trustworthiness.

Exhibitor Interviews

This year we are introducing IoT technology by Amada called My vFactory at our booth. Amada Malaysia is very happy to be back here at METALTECH for the first time in almost 10 years. We have had a lot of quality customers visiting us. Our first impression of MITEC has been very good - the location and facilities are very good.

Norhisham Bin Abu Samah
Managing Director,
Amada (MALAYSIA) Sdn. Bhd.

NCT is a 23-year-old company specialising in CNC machine tools and we are featuring a sheet metal cutting machine from Germany, which is in Malaysia for the first time. I think METALTECH attracts a good crowd and we can find many potential customers here. We have already found four or five customers today that are very interested in our machine.

Simon Ng
Chairman,
NCT Technologies Sdn. Bhd.

HERE'S YOUR CHANCE TO WIN AN APPLE IPAD PRO!

GREAT NEWS FOR ALL OUR TRADE VISITORS! We're giving away ONE (1) Apple iPad Pro each day during the show period from 15-18 May 2018. That's a total of FOUR iPADS to be won!

Seminar Programme

MOVING OUR INDUSTRIES "4WRD" HERE'S WHAT YOU NEED TO KNOW ABOUT THE LATEST GOVERNMENT INITIATIVES TO BOOST INDUSTRY 4.0!

Get all the information and knowledge you need to take advantage of the government's latest push to bring the Malaysian manufacturing industry into the fourth industrial revolution.

In the morning session, we'll take an in-depth look at the National Policy on Industry 4.0: Industry4WRD, along with Investment Incentives Related to Industry 4.0, Automation & Modernization Financing Towards the Industrial Revolution 4.0 as well as provide some insight into your preparedness with a Industry4WRD Readiness Assessment. There will also be a facilitation session on Industry4WRD Readiness Assessment Online that will be conducted by the Malaysian Productivity Corporation (MPC).

The afternoon session offers a glimpse into the latest laser welding technologies, Industry 4.0 applications in welding along with welding robot applications in sheet metal and other tips on improving quality and enhancing welding in manufacturing.

Visitor Interviews

We come here every year to see if we can get some good and innovative products. It's a good experience so far. We have met a few exhibitors and made a few enquiries already, so hopefully they will get back to us.

M. Narayanan
Managing Director,
JP CONSULTANCY & ENGINEERING SDN. BHD.

I think the venue here at MITEC is better than PWTC because the halls here are very big. I have met a lot of exhibitors here and bumped into a few friends too! It's great to be able to come here and discover all the new technologies that are available in the market.

Fun Fook Leong
Director,
MAXIPOWER PRECISION TOOLS SDN. BHD.

It's a little different this year as it's the first time at MITEC. It's an amazing place and very spacious, so it is easy to see all the machines that are being displayed.

Lam Fei Shiong
Managing Director,
JKF INDUSTRI SDN. BHD.

AC MECA (M) SDN. BHD.
BOOTH NO.: 4370

CNC Fiber Laser
ACTECH is the leading provider of affordable cnc machine and system solutions to the metal industry.

WINSAW ENGINEERING SUPPLIES SDN. BHD.
BOOTH NO.: 3005

Leading BANDSAW technique made by German engineering since 1798.

AKA MACHINE TOOLS SDN. BHD.
BOOTH NO.: 3150

ALUP Variable Speed Compressor
ALUP stand for complete range of industrial solution for compressed air with lowest TCO, it designed according to the latest demands for reliability, energy efficiency and ease of use.

CARL CLOOS SCHWEISSTECHNIK GMBH
BOOTH NO.: 4385

World gear was.
Entry package for automated welding
The portfolio of Carl Cloos Schweisstechnik GmbH comprises simple, compact systems as well as complex, chained systems with automated workpiece identification and loading and unloading processes. As of now, the welding specialists from Haiger offer a new entry package for automated welding. The focus is on the new six-axis articulated arm robot QIROX QRC-290 which is mounted in upright position on a base. The QIROX QRC-290 robot has a classic wrist where gas-cooled welding torches with a weight of up to 4 kg can be mounted. Together with the QINEO QInTron welding power source and the compact QIROX Controller QC 2 Micro, the new welding robot offers an easy entry into automated welding.

DC HYDRAULICS
BOOTH NO.: 8383

DC Hydraulics Sdn Bhd was founded in 1996 by Mr. Dino Chew, who has been in the business for over 23 years. At DC Hydraulics Sdn Bhd, we supply a wide range of hydraulic components and system solution. We strive to offer our customers high quality hydraulic products and system solution at competitive prices. We are proud to represent PARKER/Ross range of hydraulic motor products, HOF Hydraulics in hydraulics tank accessories, vane pump/motor, coupling and manual control valves. And recently we are appointed as sole distributor for Eckerle - internal gear pumps in Malaysia. We believe our strong commitment, technical know-how and efficient after sale service will enable you to enhance your business further.

DOSOCO ENTERPRISE (M) SDN BHD
BOOTH NO.: 3344

LASER TUBE CUTTING MACHINE
Specialized in manufacturing machinery for the tube processing industry as given:- (1) laser tube cutting machine. (2) Circular cold saw machine. (3) Automatic tube bending machine. (4) Circular saw blade.

EPICOR SOFTWARE (M) SDN. BHD. BOOTH NO.: 2322

Epicor ERP Wheel Diagram ENS
Epicor Software Corporation drives business growth. We provide flexible, industry-specific software designed around the needs of our manufacturing, distribution, retail, and service industry customers. More than 40 years of experience with our customers' unique business processes and operational requirements are built into every solution in the cloud or on premises. With this deep understanding of your industry, Epicor solutions manage complexity, increase efficiency, and free up resources so you can focus on growth.

IDEMITSU LUBE (MALAYSIA) SDN. BHD.
BOOTH NO.: 4015

Metal Working & Maintenance Oils & Grease
Idemitsu is the leading lubricant manufacturer from Japan, establish over 100 years experience. Produce high quality product with ecologically-friendly for a greener future.

GOLDEN LASER (M) SDN. BHD.
BOOTH NO.: 3310

Fiber Laser Cutting Machine 800w - 6000w
Your choice is our best motivation, your success is our pride

HITACHI SUNWAY INFORMATION SYSTEMS SDN. BHD.
BOOTH NO.: 8150

Product Lifecycle Management Software
A leading ICT Services Integrator in ASEAN specializing in implementing, supporting and providing consultancy for ERP & PLM solutions; managing and supporting IT infrastructures; Cloud-enabling IT platforms and secured data-centres.

HAN'S LASER SDN. BHD.
BOOTH NO.: 4100

G3015EF Fiber Laser Cutting Machine
A powerful fiber laser cutting machine for thin metal sheet maximizes your effectiveness and adapts to various metal sheet processing with the incredible cutting edge. Quick-in-action maintenance is available.

EASY MACHINES SDN. BHD. BOOTH NO.: 3505

CNC Model 4HEL by FACCIN S.P.A.
CNC Model 4HEL - 4 Rools Double Pinch Linear Guide Series Synchronized Plate Bending Roll with handling systems specifically designed for high productivity of thin rolled plates.

FUSION PLASMA TECHNIK SDN. BHD. BOOTH NO.: 3220

FUSION CNC Cutting Systems
Kjelberg Smart Focus 300

Smart Focus series achieve excellent results in the cutting range from 1 to 100 mm. The Smart Focus units can also be used for marking, bevel and underwater cutting.

JASA KITA TRADING SDN. BHD. BOOTH NO.: 8132

Jasa Kita Berhad (JKB) is a management & investment holding company and was listed on Kuala Lumpur Stock Exchange since March 1993.

JKB Group is primarily engaged in assembling and trading of electric motors, distribution of power tools, hand tools, drilling bits and other industrial supplies.

Beside distribution of industrial supplies, the Group also provide bonded warehouse services. Jasa Kita Warehousing Services Sdn Bhd is the 1st public bonded warehouse in Malaysia which commenced operation in 1981.

KOBECO MACHINE TOOLS SDN. BHD.
BOOTH NO.: 3210

Ink Jet Printer - Flatbed Inkjet printing Machine Model: RC-P-1613-2E/GS
The machine is equipped with professional color management software, color can be changed anytime, without extra charges. Apply to any materials, full color image, once for all, rich color, high resolution, 3D effect, embossment effect, gradients, zero scrap, strong corrosion resistance, result lasting, the result of graphics can be kept outdoor 10 years, and kept indoor permanently.

BOOTH NO.: 8040

KENDO Hand Tools & PTA products

KENDO provide RELIABLE tools with INNOVATIVE design and produce according to German safety standard at an AFFORDABLE price. We have 14 Hand Tools (1800 Sku) & 9 PTA product lines (3000 Sku).

TAKAMATSU MACHINERY (THAILAND) CO., LTD
BOOTH NO.: 3235

Model: XC-100ΣIC60 Loader
"TAKAMAZ" CNC 1-Spindle 1-Turret Precision Lathe
- The box slide high precision structure
- The machine width Ultra-Compact Design
- 6" Chuck size, Motor 7.5/5.5Kw with Environmentally Friendly Energy Saving Design
- Available both non-Loader and automatic loading (ΣIC60 Loader) system

Model: XC-150

"TAKAMAZ" CNC 1-Spindle 1-Turret Precision Lathe
- The box slide of rigid slide that can be used for heavy cutting.
- Achieve Space-Saving in 8" chuck size Turning Machine Industry's Smallest Class
- Effect of Power Consumption Reduction per Machine even Spindle-motor increasing to 11/7.5Kw
- Available both non-Loader and automatic loading (ΣIC80 Loader) system

TORNOS S.A.

BOOTH NO.: 3335

CNC Auto Lathe, Swiss DT 26

The Swiss DT range of Swiss-type lathes is designed to meet the various requirements of typical long and short turned parts for bar size up to 13mm and 25

TSM WELDING TECHNOLOGY SDN. BHD.

BOOTH NO.: 3300

OTC Synchrofeed Welding System

The TSM Welding Technology have been serving welding and automation system for more than 12 year with all automotive, home appliance and sheet metal line with High Quality System.

YH MACHINERY SDN. BHD.
BOOTH NO.: 4280

Fiber Laser Cutting Machine

DNE fiber laser cutting machine introduce new generation high power Fiber laser cutting machine

YCE ENGINEERING WORKS SDN. BHD.
BOOTH NO.: 4000

Roll Form Machine

Custom made design on metal sheet roll forming machine which more than 20 years experience and proven track record in the industry.

MONITOR ERP SYSTEM SDN. BHD.
BOOTH NO.: 7324

The new generation of MONITOR ERP is built using the latest technology, packed with over 10,000 news and is a flexible system that gives you full control over your business.

FA CONTROLS SDN. BHD.

BOOTH NO.: 7265

HPMONT

FA Controls revolutionize manufacturing process with Industrial 4.0 technologies and equipped machines with the right tool. MAKING TOMORROW, TODAY!

BOSCH REXROTH SDN. BHD.
BOOTH NO.: 7344

Rexroth Active Assist 1701 04 3c

The ActiveAssist assistance system makes varied assembly tasks significantly easier thanks to an interactive step-by-step tutorial. The web-based software makes all information available to employees at all times, individually tailored to their needs, and indicates errors. This is how "One-Piece-Flow" works. Intuitive to use and completely connected, you increase process reliability, minimize defects and final inspections — and increase quality.

PEPPERL + FUCHS PTE LTD
BOOTH NO.: 7186

PEPPERL+FUCHS

IO-Link Sensors and Systems from Pepperl+Fuchs

Get Industry 4.0-ready with Pepperl+Fuchs' IO-Link system solution. Pepperl+Fuchs' IO-Link sensors such as RFID read/write heads bring a new level of efficiency, reducing operation costs and downtime for your plant.

MITSUBISHI ELECTRIC ASIA PTE LTD
BOOTH NO.: 7120

e-F@ctory - Connect everything

Mitsubishi Electric's e-F@ctory concept extracts hidden benefits from existing resources through integrated automation. Evolved intelligence realize advance in work procedure, cooperation between people and robot with e-F@ctory compatibility, making Smart Factories a reality.

KARDEX MALAYSIA SDN. BHD.
BOOTH NO.: 7362

kardexremstar

Are you ready to automate your intralogistics? With Kardex Remstar automated storage and retrieval systems (ASRS), you can:

- Improve Labor Productivity
- Increase Pick Accuracy
- Save Valuable Floor Space

Kardex Remstar automated storage and retrieval systems (ASRS) are goods-to-person technologies, bringing items directly to the operator instead of the other way around. Automation reduces the time spent walking and searching for items, improving labor productivity. In addition, integrating pick-to-light technology with ASRS reduces the opportunity for human error and increases pick accuracy up to 99.9%. Replacing traditional shelf-based intralogistics systems with automation can also drastically reduce your storage footprint by up to 85%.

Shuttle Schedule

Free shuttle service will be provided between the Official Hotels, PWTC (CIMB Bank Entrance) and MATRADE Exhibition & Convention Centre (MECC).

Official Hotels ↔ MITEC

(Sunway Putra Hotel Kuala Lumpur, Seri Pacific Hotel Kuala Lumpur, Dorsett Hartamas Kuala Lumpur)

- Morning Session: 8:30 a.m. - 9:00 a.m.
- Evening Session: 7:00 p.m. - 8:00 p.m.

PWTC ↔ MITEC

(CIMB Bank Entrance)
9:30 a.m. – 7:00 p.m.

MECC ↔ MITEC

(MATRADE Exhibition & Convention Centre)
9:30 a.m. – 7:00 p.m.

Pick Up/Drop Off Point

- PWTC (CIMB Bank Entrance)
- Sunway Putra Hotel Kuala Lumpur
- Seri Pacific Hotel Kuala Lumpur
- Dorsett Hartamas Kuala Lumpur
- MATRADE Exhibition & Convention Centre (MECC)

By Car

The following major roads, expressways and highways will conveniently direct visitors to MITEC:

- | | |
|--------------------------------------|----------------|
| DUKE (Duta-Ulu Klang Expressway) | SPRINT Highway |
| NKVE (North Klang Valley Expressway) | Jalan Kuching |

By Taxi

Catch a Taxi / Grab from anywhere in KL or PJ and request for a drop-off at MITEC South Entrance.

Taxis or Airport Limos are also available from the Kuala Lumpur International Airport (KLIA/ KLIA 2) to MITEC and the drive to MITEC takes about an hour.

DO YOU KNOW?
Taxi Services are provided throughout event days, and can be found at the South Entrance of MITEC.

By Bus

- T821 – MRT Semantan - Kompleks Mahkamah Jalan Duta (only on weekdays) until 11:30p.m. 4 mins walk to MITEC.
- 852 – Titiwangsa Bus Hub – MATRADE everyday until 11:30p.m.
- 851 – Pasar Seni Bus Hub – Mahkamah Jalan Duta only on weekdays until 6:00p.m. 10 min walk to MITEC

By Train

- MRT Semantan
- LRT/Monorail Titiwangsa
- KTM Segambut Station - 20 min walk to MITEC
