- · Anvils are proportional to opening sizes. Special heat treating provides maximum
- Straight handle design resists springing while allowing the fastener to turn more easily.
- . Williams' expanded line of offset striking face wrenches, up to 4 %", provides the most extensive line on the market.
- · Specifically engineered to hold up under the most rigorous industrial use.

#### **Features**

- . Striking face wrenches are designed to be struck by a hammer on the anvil area in order to loosen frozen fasteners or to set and tighten fasteners.
- · Anvils are proportional to opening sizes. Special heat treating provides maximum durability for long life.
- · Offset handle is close to head to provide clearance in confined areas.
- . Williams' expanded line of offset striking face wrenches, up to 4 1/4", provides the most
- · Specifically engineered to hold up under the most rigorous industrial use.

# WILLIAMS

## **FRAC PUMP WRENCH**

| A safer, more dur | able tool        |
|-------------------|------------------|
| Product Code      | Stud Size        |
| 8817AFPW          | Frac Pump Wrench |

#### **Features**

- Specially designed for the oil and gas industry to work on fluid ends of well servicing pumps from all major manufacturers with 3" valve cover retainer nuts

  Offset design with 3" integrated hex driver
- · A larger striking surface ensures fewer errant blows
- · Offset reduces damage to manifold
- · Robust metallurgy ensures a safer tool that is less likely to break

## WILLIAMS

| SWR-40       | 1 1/4     | SWR-60       | 1 7/8     |

#### **Features**

- Slugging Wrench Retainers thread onto the end of the stud over the slugging wrench to ensure the wrench stays affixed to the fastener
- A spring loaded plate allows for easy adjustment of the wrench without having to unscrew the retainer.
- Increased productivity and safer operation by eliminating the need for a second worker to hold and slugging wrench in place
- · Available in 10 sizes, marked with stud sizes (not hex sizes)
- · Configured to work with offset and straight handle slugging wrenches

#### Features

- Designed for use in the petrochemical industries where clearance, particularly on flanges, and cored fasteners are often a problem:
- 6 Point Hex is offset 15 degree, and short handle length allows for use in tight spaces
- Straight Handle transfers maximum torque when struck
- Assortment fits Stud Sizes up to 2 ½"
