

GREEN ENVIRONMENT RECYCLE PROGRAMME FOR FOOD WASTE

PROCESS 1: Collect the waste compactor from site and transport to 'Vision Waste Disposal Sdn Bhd' store.

PROCESS 2: Segregation process at 'VWD' store. We separate recycle item, food waste from the waste.

PROCESS 3: Store the food waste in a drum to send to factory.

GREEN ENVIRONMENT RECYCLE PROGRAMME FOR FOOD WASTE

PROCESS 4: Stored food waste will be transport weekly three times to the factory.

PROCESS 5: This composter process took 8-48 hours. After two days, organic fertilizer comes out.

****AFTER 8 TO 48 HOURS COMPOSTER PROCESS**

GREEN ENVIRONMENT RECYCLE PROGRAMME FOR FOOD WASTE

FINAL PROCESS: Composted food waste is now ready for the plant to be a non-chemical natural fertilizer.
