## INTRODUCTION OF COMPANY

Vision Well Trading & Engineering has been in service for the past 12 years and was upgraded to Vision Waste Disposal Sdn. Bhd.

Vision Waste Disposal Sdn. Bhd. was incorporated on October 2006, a wholly owned 100 percent Malaysian company.

Vision Waste Disposal Sdn. Bhd. is a professional Integrated Solid Waste Management Services company and is also licensed recycle program, supply recycle bins, garbage bins and all kinds of plastics and metal bins.

Our focus mainly on recycle program (zero waste) and domestic, Institutional, Commercial, Industrial waste and are registered with DBKL, MBSA and other local authorities.

At present, the trustworthiness which our clients always have on us, helped us to attain an extensive growth and now we are more than 50 in our team to carry out our existing jobs. We have even plans to increase our workforce as we prepare expansion of operations to new areas soon.

*“We care for your environment”*  
**REDUCE, RECYCLE, REUSE**

Painting also being done by our company. We have the expertise in painting buildings and car park, inclusive of rise high Buildings.

*“We care for your environment”*  
**REDUCE, RECYCLE, REUSE**

## RECYCLING GLASS CRUSHER

### □ Glass Recycling Process:

local bottle banks >> collection >> loading >> manual sorting  
>> crushing & screening >> ferrous metal removal >> stone and ceramic removal >> vacuuming >> none ferrous metal removal  
>> small ceramic & stone removal >> final visual check >> transfer to holding bay

### *Good For The Environment*

A glass bottle that is sent to landfill can take up to a million years to break down. By contrast, it takes only 30 days for a recycle bottle to leave your factory recycling bin and appear as a new glass container. Even it can be recycled repeatedly, again and again, with no loss of purity or quality in the glass.

*“We care for your environment”*  
**REDUCE, RECYCLE, REUSE**

*Glass Crusher Machine*

**RECYCLING PLASTIC**

Plastic is an artificial substance designed for human needs, so it is difficult for the environment to completely integrate. Much of the plastic thrown away languishes in landfills for decades with no respite. Recycling is one key to removing most of it from the environment, but there is no unanimity among the types of plastic that are manufactured. There are six distinct types of resin that directly translate into six individual codes, plus one catch-all category. These include, in order of their code, polyethylene terephthalate, high density polyethylene, polyvinyl chloride, low density, polyethylene, polypropylene and polystyrene. Polyethylene is the most popular resin.

Some resins may be stronger or more flexible than others. Certain resins may be linked to health problems. Not all of them are efficacious for recycling.

*PLASTIC RECYCLING MACHINE*

*Loading the plastic into the machine*

*Plastic Baler Machine for small volume*

*“We care for your environment”*  
**REDUCE, RECYCLE, REUSE**

*Compact the plastic for recycle purpose*

## **RECYCLING CARTON BOXES & PAPERS**

Paper cartons are everywhere, many of these cartons can be recycled, saving materials and preventing waste. There are many types of paper cartons. Corrugated cardboard is a very common material which can be recognized by the wavy lines you see inside the cardboard at the cut edges. Other materials include chipboard or boxboard, which is used to make cereal packets. Additionally, food and drink containers are often made of cardboard with a plastic or wax coating.

Recycling paper and other materials has a number of benefits. Recycled cartons don't end up in landfill, reducing the amount of waste that's dumped. Recycling also saves trees from being cut down to make new paper, and is more energy efficient, using between 28 and 70 percent less energy.

Tuan,

#### TAPAK PELUPUSAN SISA PEPEJAL PEMBINAAN YANG DIBENARKAN

Dengan segala hormatnya saya diarah merujuk kepada perkara tersebut di atas.

2. Untuk makluman tuan/puan, Perbadanan Pengurusan Sisa Pepejal dan Pembersihan Awam (PPSPPA) di bawah Kementerian Kesejahteraan Bandar, Perumahan dan Kerajaan Tempatan (KKBPKT) telah diberi tanggungjawab dalam pengurusan sisa pepejal dan pembersihan awam di Malaysia melalui **Akta Perbadanan Pengurusan Sisa Pepejal dan Pembersihan Awam 2007 (Akta 672)**. Salah satu sisa pepejal terkawal di bawah Akta 672 ialah sisa pepejal pembinaan yang dijana daripada tapak-tapak projek pengubahsuaian, pembinaan baru dan perobohan. Sisa pepejal ini hendaklah diurus dengan baik dan dihantar ke tapak pelupusan yang dibenarkan.

3. Masalah pembuangan sisa pepejal secara haram di kawasan Kuala Lumpur berada pada tahap yang membimbangkan. Oleh itu Perbadanan telah menetapkan hanya **3 tapak pelupusan sisa lengai** yang dibenarkan untuk melupus sisa pepejal pembinaan. Nama tapak pelupusan yang dimaksudkan dan lokasinya adalah seperti di **Lampiran A**.

4. Sekiranya pihak tuan/puan ingin melupuskan sisa bagi tujuan penambakan tanah, tuan/puan hendaklah memaklumkan kepada pihak Perbadanan secara bertulis dan melampirkan bersama surat kelulusan daripada Pihak Berkuasa Tempatan (PBT) atau daripada agensi-agensi berkaitan termasuk Pejabat Tanah & Galian (PTG)

PERKARA : TAPAK PELUPUSAN SISA PEPEJAL PEMBINAAN YANG DIBENARKAN  
TARIKH : 11 JULAI 2013

5. Jika pihak tuan/puan didapati membuang sisa pepejal di tempat yang tidak dibenarkan, pihak Perbadanan mempunyai kuasa untuk mensabitkan kesalahan di bawah **Seksyen 72 (Akta Pengurusan Sisa Pepejal dan Pembersihan Awam 2007 (Akta 672))** yang boleh didenda tidak kurang daripada **RM10,000 dan tidak melebihi RM100,000 atau dipenjarakan dalam tempoh tidak melebihi 5 tahun atau kedua-duanya sekali.**

6. Sehubungan dengan itu, kerjasama daripada pihak tuan/puan dalam memastikan negara kita berada dalam keadaan bersih dan sihat amatlah dihargai dan diucapkan terima kasih.

Sekian.

## **MSB SCRAP METAL**

*IMPORT & EXPORT OF FERROUS & NON-FERROUS METALS, PLASTIC, WASTE PAPER & ETC.*

### **OUR SERVICES**

- Collection Service
- Top prices guaranteed
- Weighing Service
- Specialist processors of Aluminum
- Cash buyers of all grades of ferrous and non-ferrous metals
- Environmentally friendly company
- All waste products handled are fully recycled
- Exotic and precious metal traders
- Works and site clearances undertaken
- Drums, pallets, containers and skips supplied for your metal wastes
- Bailing, Sorting, Segregating, Refining, Granulating and Shearing Facilities

MSB SCRAP METAL currently deals with the below mentioned non-ferrous metals:

- Copper
- Aluminum
- Brass
- Stainless Steel
- Cables (Outstripped)
- Lead
- Drinking Cans (pure aluminum)
- Iron
- Metallic Equipment & Accessories (Radiators, Carburetors, Electronic Waste, Carton Box, Waste Paper etc)
- Plastic Materials

**MSB SCRAP METAL** would get itself involved in the trading of higher volumes of ferrous-based scrap metal which would yield **MSB SCRAP METAL** higher profit margins due to the relative cheapness of ferrous based scrap metal. Trading in greater volumes of ferrous products would require larger tracts of land area for processing and storage purposes and the Directors are of the opinion that will provide the flexibility towards the achievement of this diversification in their portfolio.
