vData VMS

User Friendly Build-in Form Designer

The screenshot displays the vData VMS User Friendly Build-in Form Designer interface. The central canvas shows a form titled "Vehicle Pass" with a QR code, the number "12345678", and the text "[Visitor_Pass.\"Barcode Number\"]". Below the QR code, there is a note: "Please return upon leaving premises" and "Sila kembali apabila meninggalkan premise".

The interface includes a menu bar (Code, Data, Page1), a toolbar, a left-hand tree view showing a report structure (Report > Data > Page1 > MasterData1 > Barcode2D1), a right-hand data source panel (Data > Visitor_Pass > Barcode Number), and a bottom properties panel for the selected element (Barcode2D1: TfrxBarcode2DView).

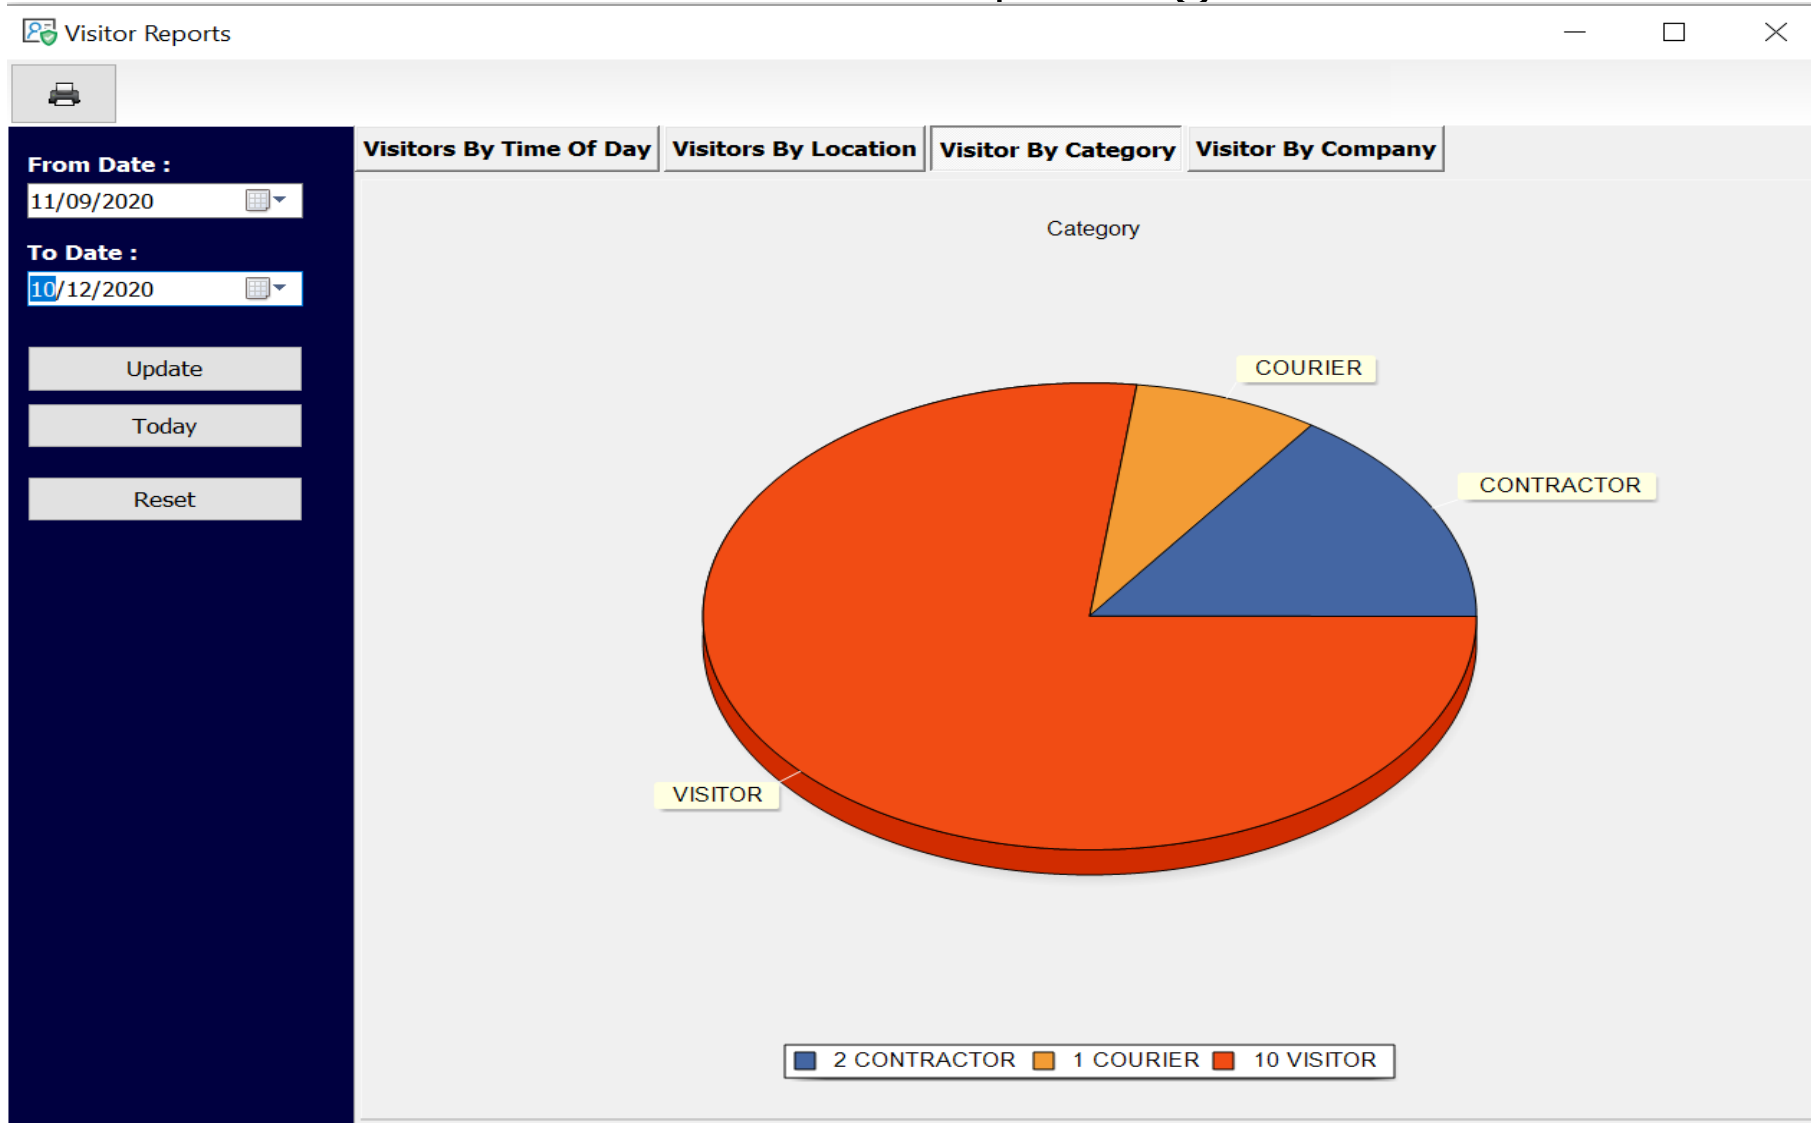

The Properties panel shows the following settings:

- DataSet: (Not assigned)
- Description: []
- Editable: []
- ErrorText: []
- Expression: []
- Fill: (TfrxCustomFill)
- Font: (TFont)
- FontScaled: true
- Frame: (TfrxFrame)
- HAlign: haLeft
- Height: 4.94
- Hint: []
- Hyperlink: (TfrxHyperlink)
- Left: 1.30
- Name: Barcode2D1
- Printable: true
