## EM Home

EM Home is an eco-friendly product that can be used for home cleaning, deodorizer, pet care, washing etc. in the household.

EM Home is an extract from fermentation process that contains microbes and natural raw materials.

EM Home works by breaking down the source of odors and stains hence maintaining clean room and fresh air in the room.

EM Home also can be used for pet. EM Home eliminate pet odor and keeps them healthy. EM Home does not cause harm if ingested by pet or even human.

# How to use

## Dilution and application

Dilute EM Home with clean water at the dilution ratio 1:25 - 1:50 and spray for odor control and cleaning home or pour the solution to sink, drain, toilet etc.

### Deodorizer

Spray EM Home where odor spread in bathroom and washroom or drain pipe etc. EM Home can be sprayed on shoes or sandal to reduce odor and to keep sanitary.

### Pet care

Spray EM Home on pet toilet or spray on pets when brushing. EM Home reduce the smell and make pet fur healthier.

### Washing

Mix 40 - 50 ml EM Home with detergent in washing machine to make cloth softer. Soak cut board or face mask for half an hour to deodorize and sterilize.

### Bathroom

Spray EM Home and mild scrub after use bathroom to reduce mold growth and stain on floor and wall. Pour EM Home to the drain to reduce the odors from pipe.

### Kitchen

Spray EM Home in kitchen and drain after cooking to clean kitchen and remove cooking smell. Spray EM Home to degrease oil from stove. If stain is hard, use soap first and use EM Home.

### Toilet

Mix EM Home with water and pour in the toilet area. Scrub and rinse with water.
