METRIC/SAE TOOL KIT

QUALITY WITHOUT COMPROMISE

We all know that in the USA, "BIGGER IS BETTER". The culture of mechanical technicians is no different. With that in mind SP Tools set about designing a new range of tool storage that would not only satisfy the USA market, but do it bigger and better.

- **DOUBLE WALL SUPER DUTY CONSTRUCTION** – all USA Sumo Series boxes use 1.5mm (14.5ga) steel construction as standard. That's more steel than like for like competitors
- **EXTRA HEIGHT** – technicians seem to be getting taller every generation. SP Tools has stepped it up and increased the head clearance height on our USA Sumo Series Hutches. We have set the new clearance at 1855mm (6'1").
- **ON-BOARD POWER** – charge and store all your cordless tools, lighting, and diagnostic equipment. SP Tools has created a unique on-board magnetic attachment system so you can move and use your power where ever you need.
- **SUPER DUTY CASTERS** – all USA Sumo Series storage system use the unique spring-loaded super duty caster. Each caster is capable of supporting 400kg.
- **SP MAX BBS DRAWER SLIDES** – the drawer slides in the new USA Sumo series have lifted us to a new level of capacity over and above our existing BBS. They are rated at 60Kg per drawer and 120kg per drawer on the wider and deeper drawers
- **SP ONE-TOUCH CLIKLOK** – the new drawer retention system has an easy one touch single handed release and open function. The perfect combination to keep the drawers securely closed, but easy to open
- **UV POWDER COATING** – the USA Sumo Series uses the latest technology in Ultraviolet (UV) powder coating. We have combined the advantages of thermosetting powder coatings with those of liquid ultraviolet cure coating technologies.
