JIGSAW BLADES FOR WOOD & METAL	55
JIGSAW BLADES FOR WOOD	56

More information:

The logo consists of the letters 'AS' in a bold, white, sans-serif font, set against a red diamond-shaped background.

SAFE, PRODUCTIVE AND VIRTUALLY UNBREAKABLE BLADES

A circular callout containing the number '30', indicating the angle of the blade's teeth.A circular graphic containing the Bahco logo, which is the word 'BAHCO' in white on a red background.

**MADE OF VIRTUALLY
UNBREAKABLE BI-METAL**

A circular graphic containing the Bahco logo, which is the word 'BAHCO' in white on a red background.

**PROGRESSIVE TOOTHING FOR
FAST AND CLEAN CUTS**

A circular graphic showing a close-up of the T-shank of a jigsaw blade. The text '91-143/4,5-6 WOOD' is printed vertically on the black shank.

**UNIVERSAL T-SHANK FITS ALL COMMON
JIGSAW MACHINE BRANDS**

More information:

FULL OF POWER

Bahco Jigsaw Blades are easy to select and the best choice for you. For metal and wood, or aluminium and plastic, you will find a virtually unbreakable blade for every common application.

Our range of Bi-Metal blades provide the toughness of high-speed steel with the flexibility of spring steel. These blades maintain their sharpness for a long time and can withstand immense strain. The high-speed steel (HSS) blades are ideal for cutting metal, aluminium and non-ferrous metal. The excellent high-carbon steel (HCS) blades are specially made for softer materials such as wood, laminate and plastics.

FULL SUPPORT

SELECT THE RIGHT TOOTHING (TPI)

Teeth per inch

Material thickness	≤ 3 mm	3-10 mm	11-20 mm	21-50 mm	≥ 50 mm
Jigsaw Blades for metal	36 - 24	10/14 or Prog.	14 or Prog.	8 or Prog.	
Jigsaw Blades for wood & metal		10 or Prog.	10 or Prog.	10 or Prog.	10 or Prog.
Jigsaw Blades for wood	20	13 - 10 or 10 Rev.	10 or 10 Rev.	8-6	5

PROGRESSIVE TOOTHING

The new progressive toothing is a bonus when cutting thin materials. The teeth then become coarser and more effective further out from the shank, allowing thicker material to be processed. The design offers a blade that works optimally in most work situations. And with a universal t-shank, the blades fit almost every jigsaw machine.

91-M JIGSAW BLADES FOR METAL

FEATURES:

- These blades fit AEG, Atlas Copco, Bosch, DeWalt, Hitachi, Makita, Metabo, Milwaukee and similar machines
- Standardised T-Shank (also referred to as Euro shank)
- Type of blades:
HSS: High Speed Steel is long lasting and will cut through most materials
BiM: Bi-metal combines the cutting performance of HSS with the flexibility of carbon steel, the saw blades are shatterproof and suitable for cutting through all types of material
CT: Carbide Tipped, for abrasive materials. Ceramics, reinforced plastic, marble, glass
HM: Hard Metal

- A new progressive toothing has been introduced on our universal progressive blade
- The progressivity gives many fine teeth close to the shank, good when cutting thin material, the teeth then become coarser and more effective further out from the shank, allowing thicker material to be processed
- Packaging: -5P = 5 blades packed on informative card -1P = 1 blade packed on informative card
