# FULL OF POWER

The Bi-Metal Portable Band Saw Blade is based on the idea of one blade cuts all. This easy-cut geometry provides a wider operating range than a conventional blade of similar TPI. This allows a smaller number of blades which still cover all material types and sizes.

Our Band Saw blades are made of Bi-Metal; High-Speed Steel tooth tips combined with flexible alloy-steel backing material. This gives you the most cost-effective band saw blades for most metal sawing applications.

We produce these Bi-Metal blades in our own factories in Europe – both the Bi-Metal and the saw itself. Even the testing takes place in our own R&D centre. That's why our cutting heritage is respected by professionals and is famous for its high-quality and 'time-per-cut'.

## FULL SUPPORT

### CUT IT ALL!

Easy-cut blades cut anything without changing blades.

- Wood
- Plastic
- Pipe
- Tubing
- Channel

- Sheet Metal
- Mild Steel
- Tool Steel
- Angle Iron
- Stainless steel

- Copper
- Brass
- Aluminium
- Drill rods
- Beams

- H and I beams
- Solids
- Bundles

### EZ (EASY-CUT) TOOTHING

This patented design gives a very versatile blade, able to cut all common materials in addition to being highly resistant to tooth stripping. In combination with the multi-purpose tooth shape, it is ideal for small workshops cutting different sizes in different materials. Now you can spend more time cutting and less time changing saw blades!

BI-METAL BLADE; HIGH-SPEED STEEL TOOTH TIPS COMBINED WITH FLEXIBLE ALLOY-STEEL BACKING MATERIAL

**3857 EASY-CUT PORTABAND**  
**EASY-CUT PORTABAND**

**FEATURES:**

- The Easy-Cut is a new generation of General Purpose Bandsaw Blade
- The same blade will cut a much wider range of materials and shapes
- Specially designed for cutting ferrous, non-ferrous materials, solids, pipes, profiles or bundles
- When also cutting solid materials, we recommend (M) medium tothing for the best results
- New and unique, innovative tooth design, which allows a much wider operating range than a conventional tooth type
- Available lengths in MM: 1140 - 900 - 835 - 730 - 690
- Just choose the blade according to your work-piece size
- 3 blades are packed in each box
