1862

FULL OF PERFORMANCE

1969

In 1862, the Swede Göran Fredrik Göransson founded the companies Högbo Stål and Jernwerks AB for the purpose of producing high-quality steel. These companies formed the basis of Bahco and made us a leading global manufacturer of ergonomic tools.

By launching the first ever Bi-Metal Hand Hacksaw blade in 1969, we started a new era in cutting performance. Customers started to recognise us by the sublime quality and we became an inspiration for others.

The Bi-Metal blade set the tone for our entire range of cutting tools and also has a strong part to play in the Power Tool Accessories range, with Holesaws, Sabre Saws, Jigsaws and Band Saws – still the most powerful of their kind.

More information:

FULL OF POWER

Our many years of knowledge and experience have led to a full range of Power Tool Accessories. Over 2,000 products and growing

Thanks to this comprehensive range, professionals now only need Bahco. One strong brand on which they can build. A full range of premium-quality Power Tool Accessories to meet every need.

A FULL RANGE OF POWERFUL PRODUCTS

More information:

FULL SUPPORT

You can quickly find the right product for your application thanks to the information on the product and the new packaging.

The improved packaging line contains powerful symbols that clearly indicate the applications for which the product is designed.

On every product, Bahco has printed or engraved clear information that will save precious time for you. This may be the application or material to be cut, or the size and tothing for example. So whatever the job, you will find the right product fast!
