About us

Namani Smart Solution Sdn Bhd was established with a core principle of delivering affordable, innovative, and high-quality smart locks accompanied by robust after-sales service. Our aim is to make keyless entry accessible to everyone in Malaysia by introducing smart locks to the masses.

Our in-house brand, Namani, offers a broad range of smart lock options across multiple price points, catering to diverse customer needs. Our goal is to provide advanced and cost-effective smart access solutions to Malaysia, coupled with exceptional customer service.

At Namani Smart Solution, we prioritize customer satisfaction and recognize the significance of providing excellent service. Our team members are well-trained, knowledgeable, and experienced in delivering top-notch customer service.

We not only sell smart locks but also educate our customers on how to operate them seamlessly in their daily routines. From pin code unlocking to wifi remote unlocking and even the latest 3D face recognition technology, we remain at the forefront of access technology.
