## ROTARY DRIVER FOR SWING & FOLDING GATE

### GFM - 925 SERIES

 **Green Machine • Hybrid Power**  
REDUCE 95% ELECTRICITY \$\$\$ & CO<sub>2</sub> EMISSION

## Green Machine • Hybrid Power

REDUCE 95% ELECTRICITY \$\$\$ & CO<sup>2</sup> EMISSION

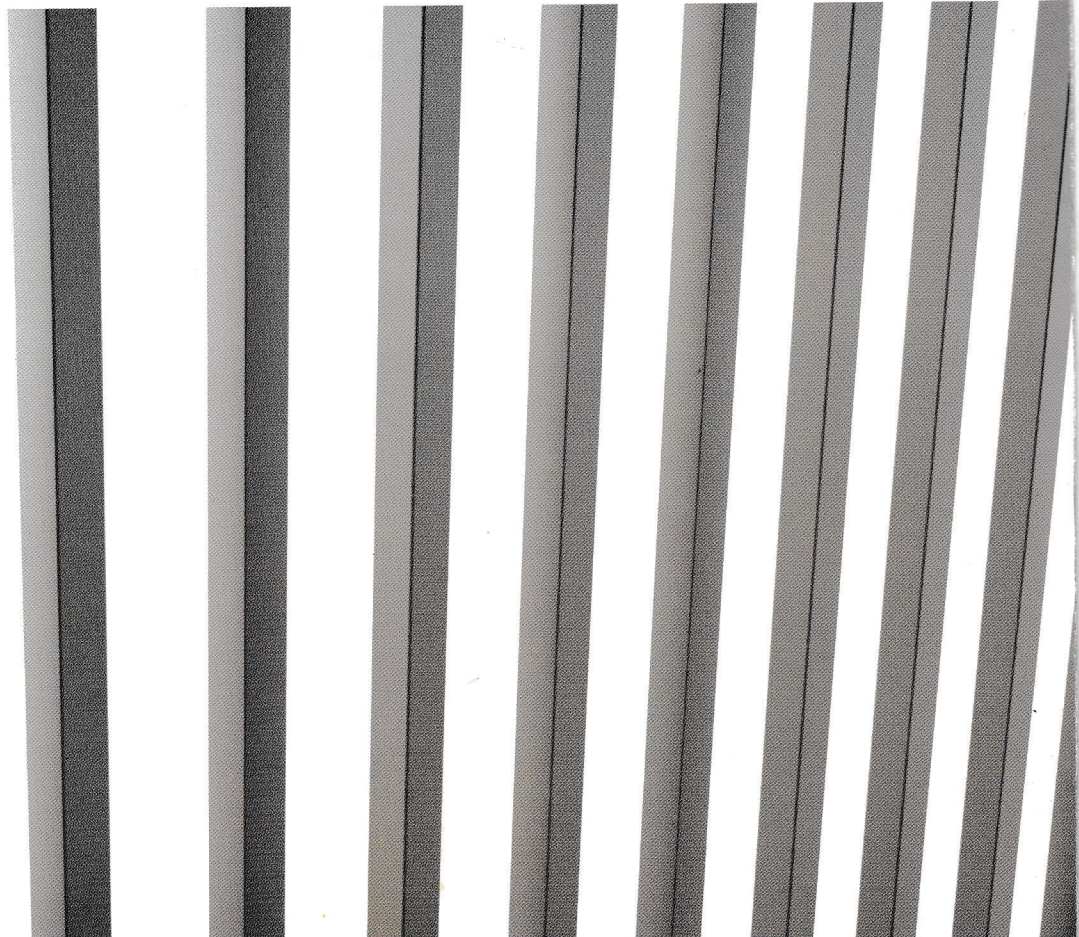

A conventional auto-gate system burns about 10 to 20W of electricity during standby.

*DCMoto*<sup>®</sup> **HYBRID POWER System** will cut off the main supply during standby. The electronic system will get power from the standby battery at merely 0.2 Watt.

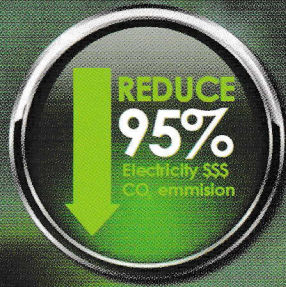

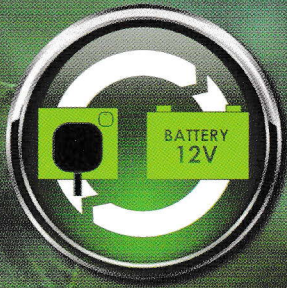

The main supply will only be on when running the motor or charging the battery.

This results in a reduction of energy consumption by 95%

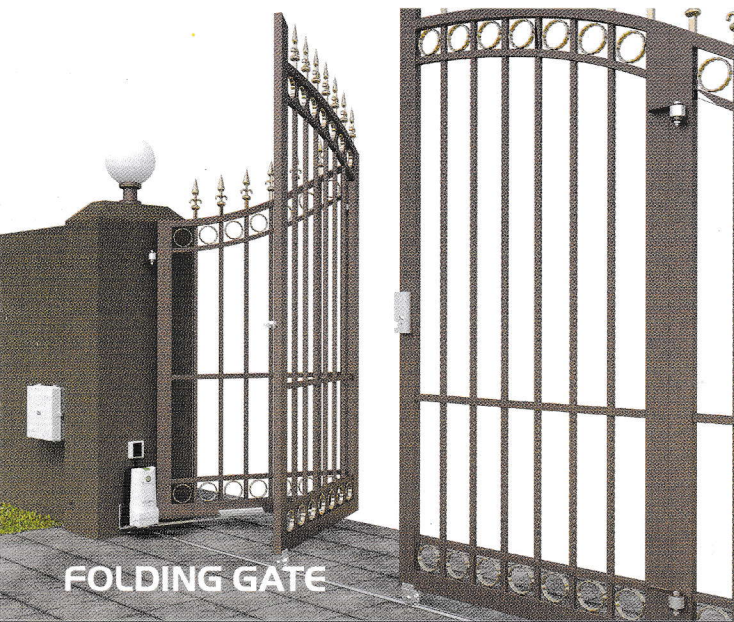

## GFM 925AL MODEL with **AUTO LOCK** FOR EXTENDED SECURITY

It drives swing type gate up to 4M or folding gate up to 8M

FOLDING GATE

SWING GATE

## GFM 925W MODEL

An alternative model with built in electromagnetic lock instead of external auto lock

\* Easy release in case of system failure

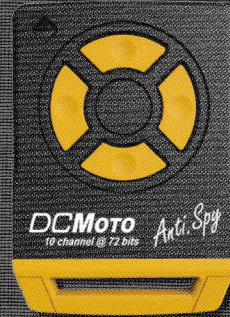

# THE WIRELESS ADVANTAGE

Saving the hassle of running wire inside the house

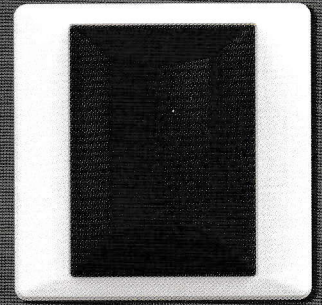

**ANTI-SPY**  
ENCIPHERMENT TECH

Wireless Multi Function Keypad  
With Anti-Spy Technology

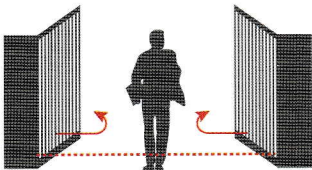

Multi Function Remote Control

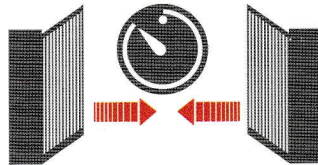

Infrared Safety Beam
