

HB Series

High Quality Fullrange Box Speaker

Suitable for fixed installations, the HB 530 series speaker range provides premium sound quality for surface mounted applications in hotel BGM system, Malls, F&B, retail outlets, museums and galleries. Couple them with our SB 515 Sub-woofer and get the best out of the system. You'll be amazed by the sound it can produce!

HB 530 series speaker range comes in High Impedance, Low Impedance and Wireless options. The High Impedance option is meant for long distance speaker distribution, Low Impedance option is for short distance speaker coverage, and the wireless option is meant for any situation when cabling is a challenge in project deployment.

HB 530

HB 530-L

HB 530-AS

- 5" Fullrange point source driver
- Enclosed in a durable High Impact ABS enclosure
- Epoxy coated mesh to blend into most surroundings
- Suitable for background music distribution applications such as malls and hotels
- Available in models for high impedance, low impedance and wireless AirStream application
