YXH-3A Automatic Loading Ambulance Stretcher

Detailed Product Description:

This automatic loading stretcher is our latest product; it is made of high-strength aluminum alloy thick-wall pipes. The bed surface is made of foamed cushion and the adjustable back making the wounded feel comfortable. This stretcher is very convenient; one person is enough to send the patient (with this stretcher) to the ambulance car. The mechanical foldaway legs are controlled by the handles on both ends of the stretcher. And the legs can be folded under the stretcher automatically when loading into the vehicle. Also the stretcher can be locked by the fixing devices when on the ambulance car. This type of stretcher is characterized by its light weight, durable, safe usage and easy for sterilization.

Model	High Position (L*W*H)	Low Position (L*W*H)	Maximum Angle of the Back	Packing Size (1pcs)	Load Bearing	N.W	G.W
