COMPANY PROFILE

About us

The name Cypress is derived from a tree (*Cupressus sempervirens*) famous for its longevity and our company's concept is based on its symbolic meaning.

+ Longevity

We constantly adopt and practice to ensure sustainability in our business etiquette.

The shareholders have over 20 years of history in supplying medical devices through a comprehensive network of supply chain to pharmacies, clinics, hospitals and corporate companies.

+ Sensitivity in Nature

We ensure that our customers are well taken care of and our customers are our top priority.

We provide :

- After sales service for our customers.
- Sales support and technical training for our business partners.
- Preventive maintenance and repair work for the medical professionals in clinics and hospitals.

+ Quality Control

We strive on providing high quality medical devices to the medical professionals. They in turn, provide the best possible healthcare for you and your family.

We use higher order reference method calibrators and all of our testing and calibration devices are certified by SIRIM to meet the Malaysia Standards MS 2058 edition: 2009 Code of Practise for Good Engineering Maintenance, Management of Active Medical Devices.

Our company would comply with the Good Distribution Practice in Medical Device (GDPMD) when the Medical Device Act 737 is fully enforced in the year 2013/2014.

Products

Our products are affordable, known in the market for their superior performance using the most leading technology application covers from consumer lifestyle monitoring devices to assist medical professionals in better diagnosis and understanding of the patients' medical condition.
