General Business Overview

Ritz Medical Sdn Bhd is a pioneer company bringing in interventional technology (PTCA) to treat coronary artery diseases in Malaysia. Ritz Medical Sdn Bhd was established in 1994.

Today Ritz Medical Sdn Bhd has a vast network of customer service offices located in Penang, Ipoh and Kuala Lumpur, in which each state is serviced by a dedicated team of staff.

Healthcare Division provides home monitoring devices to manage and control metabolic diseases and cardiovascular diseases and its risk factors. Ritz Medical is able to provide customers with a high quality customer care using monitoring devices "outside" the hospital.

Medical Division is focused in the company core business on angiographic product for catheterization laboratory. Ritz Medical has the expertise to provide medical software integration for a networking cardiology information system (CIS) to the hospital information system (HIS) for an online digital medical record system.

Recent expansion in business includes Cardio respiratory diagnostic medical equipment in cardiac assessments equipments ranging from machines like the Resting ECG, Holter and Stress ECG Systems to vital sign patient monitors, public access automatic external defibrillator AED and first aid stretcher and supply

Medical Division

Focus service in company core business in vascular intervention and angiography accessories

Recent expansion business include service provider of state of art non invasive diagnostic medical equipment in cardiac assessments equipment from Rest ECG, Holter and Stress ECG System to vital sign patient monitor, to the rescues device like public access automatic external defibrillator AED.

Ritz Medical has expertise to provide medical software integration for a networking cardiology information system (CIS) to the hospital information system (HIS) for an online digital medical record system.

Healthcare Division

Provides state of art home monitoring device to manage and control metabolic syndrome and cardiovascular disease risk factors include Digital Blood Pressure Monitor, Blood Glucose Meter, Body Weight and Body Composite Analyzer.

Ritz Medical would able to provide customer a high quality Home Monitor Device outside the best hospital.

Home Monitoring Device like Heart ECG could help physician closely monitor patient at home.
