Curve Bender 55R 			02330028		
Curve Bender 115R 			02330029		
Partial Bender			00950027		

Selfie

- Designed to enable easy bending into a curve.
- Ready to be bent into L-shaped, S-shaped, U-shaped and other shaped curves.
- Special bender enables bending by hand at the installation site.

Selfie's Unique Features and Applications

An easy way to stylish window treatment using the New Valance Rail.

When using as the New Valance Rail

Using the bender enables easy curving.

Use a joint pin at rail splices.

Exceptionally easy installation.

- The rail is vertically symmetrical and not direction-sensitive, resulting in easier, more efficient installation.
- The horizontally symmetrical I-shaped design makes the bend easy to undo.

Curving flexibility.

Use intermediate stops for styled curtains.

Basic Installation Curving Method

1. At the rail bending point, align the 0° point of the bender with the end of the clamp and secure.

2. Hold the bender and the rail and gradually bend the rail to the graduation mark of the desired angle.

Window type	Attachment type		L (Total rail length)	M (Bending point)
90° bay window	Single attachment	R115 use	(A + B + B) - 239 mm (9.4")	B - 150 mm (5.9")
		R55 use	(A + B + B) - 187 mm (7.4")	B - 90 mm (3.5")
	Double attachment	Exterior side (R115 use)	(A + B + B) - 239 mm (9.4")	B - 150 mm (5.9")
		Interior side (R55 use)	(A + B + B) - 427 mm (16.8")	B - 150 mm (5.9")
60° bay window	Single attachment	R115 use	(A + B + B) - 146 mm (5.7")	B - 107 mm (4.2")
		R55 use	(A + B + B) - 133 mm (5.2")	B - 72 mm (2.8")
	Double attachment	Exterior side (R115 use)	(A + B + B) - 146 mm (5.7")	B - 107 mm (4.2")
		Interior side (R55 use)	(A + B + B) - 341 mm (13.4")	B - 142 mm (5.6")
45° bay window	Single attachment	R115 use	(A + B + B) - 138 mm (5.4")	B - 97 mm (3.8")
		R55 use	(A + B + B) - 133 mm (5.2")	B - 72 mm (2.8")
	Double attachment	Exterior side (R115 use)	(A + B + B) - 138 mm (5.4")	B - 97 mm (3.8")
		Interior side (R55 use)	(A + B + B) - 352 mm (13.9")	B - 157 mm (6.2")

Using a Partial Bender

This is useful for making partial curves for curtain returns at both ends of a bay window curved rail to prevent light filtering into the room.

It can also be used as a curve bender (55R).

1. Insert the end of the rail into the bender.

2. Slowly bend the rail on your.

Note: Do not use this bender with rails other than those specified.

Materials and Finishes

Parts	Material	Finish	Parts	Material	Finish
Rail	Aluminum alloy extrusion material	Alumite, Alumite umber, Alumite white	End Cap	Plate	Hard polyethylene
			Stop plate	Steel	—
Roller	Plate	Hard polyethylene	Bracket	Oval ring	Stainless steel
	Wheel	Acetal resin		Body	Steel
	Oval ring	Stainless steel		Snap board	Steel

Bracket Installation Interval and Allowable Curtain Load
