

WPC DECKING

Dynaloc Wood Plastic Composite (WPC) is a combination of highly refined wood fiber and polymer resins (PE). The wood fibers are encapsulated in a polymer which makes the hard and significantly reduces its thermal expansion.

Dynaloc WPC Decking is suitable for outdoor floor. Which is long wearing, safe and ecofriendly. Our decking is safe for children as it is splinter free. Their surface feels like wood. They keep their natural appearance for many years, and there is no need to paint them. At the same time, the material is extremely environmentally friendly and 100% recyclable.

To ensure the excellent quality and safety, we insist to use

- HDPE (Grace A Recy HDPE)
- Wood fiber (Professionally treated by dry wood fiber)
- Chemical Additives (anti-UV agent, anti-oxidation agent, anti-fungus agent, stabilizers, colorants, coupling agent, reinforcing agent, lubricants, etc.)

The benefit of Dynaloc WPC:

- Natural wood look
- Long Lifespan
- No Splintering
- Water Resistant
- Mould Resistant
- Low Maintenance
- Easy Install
- No Trip Hazards
- Slip Resistant
- UV / Color Stability
