• 358 Secure Fence

**358 Security Fencing** is extremely difficult to penetrate, with the small mesh aperture being effectively "toe or finger-proof", and extremely difficult to be cut using conventional hand tools. '358' comes from its measurements 3" x 0.5" x 8 gauges which equates to approx. 76.2mm x 12.7mm x 4mm in metric.

**ANTI-CLIMB:** Small openings, no toe or finger holds.

**ANTI-CUT:** Robust wire and welded joints make cutting very difficult.

**BETTER VISIBILITY:** Flat, two-dimensional profile, easier to see through than chain link fence.

**Basic Data:**

**Mesh Pattern:** 76.2mm (3") x 12.7mm (0.5") resistance welded at each intersection.

**Horizontal Wires:** 4mm diameter at 12.7mm centres.

**Vertical Wires:** 4mm diameter at 76.2mm centres.
