

## 1. COMPANY PROFILE

**Seiko Denki Company** is a cost-effective manufacturer, specialized in custom molded cable assemblies and wire harness. We are also engaged in design, development and production of harness products which supplies to wide range of industries like Medical, Consumer Electronics, Automotive, Telecommunication and Original Equipment Manufacturer (OEM)

We do emphasize and focus on engineering solutions to provide our customer with high quality, cost effective design for their specific application backed by superior customer service.

## 2. OUR COMPANY VISION

- **Seiko Denki** aspires to become center of excellence by gaining the trust and to dedicate full support to customer by always putting customers' satisfaction as our priority.
- **Seiko Denki** will continue to leverage its core competence in manufacturing wire harness as it aims to make greater strides in becoming an even more comprehensive solution provider which can fully meet high expectations from customer.

### OUR MISSION

- **Seiko Denki** is dedicated to achieve excellence in wire harness production efforts and build state of the art products that exceed customers' expectations for efficacy, performance and quality as Seiko Denki constantly strives to improve the product requirements of the manufacturing process and the Quality Management System. The ultimate goal is quality products and satisfied internal and external customers from all across the globe.
