Jotun Paints

Disclaimer

We have made every effort to make the colours on screen as close to actual paint colours as computer screen resolutions allow. Please refer to paint chip samples for an accurate match. Colours will vary depending on your screen settings and resolution. Applied sample is recommended when colour matching is critical.

Gardex Premium Gloss Features

Low Odour

By using Low Aromatic Formulation, paint odour is low during and even after application making painting easier and more home friendly compared to other gloss enamel paints. You and your family can almost immediately move into your newly painted homes without having to put up with overpowering paint odour. Unpleasant paint odour becomes a thing of a past with **Gardex**.

Excellent Colour Last with TrueColour Technology

Extensive research in our high technology laboratories led to the creation of TrueColour Technology, which has been used in the formulation of **Gardex** paint. This technology enables **Gardex** colours to last longer. The result is colours that stand the test of time even after repeated exposure to the elements.

Optimized Drying Time

Gardex new formulation has its drying time optimized to ensure a smooth and tough finish every time. This formula emphasizes proper drying on the top and bottom layer of each coat, resulting in a high quality finishing.

Multicolor Tintable

Using Jotun's Advanced Multicolor Tinting Technology, **Gardex** offers the widest range of colours to tailor to your individual preference and to match your home. Draw from our inspiring colour themes to make your selection or create your own colours limited only by your imagination.

100% Lead & Mercury Free

At Jotun, we have the highest standards in health, safety and the environment. **Gardex** is formulated without any lead and mercury, ensuring that the product is safe for you and your family.

Anti Rust

Rust attacking your metal surfaces will result in a brittle substrate and not to mention an unpleasing sight. **Gardex** ensures protection against rust as it protects the metal surface from oxidation and water damage. This will enhance the strength and beauty of your surface for years to come.

Anti Fungal

Preventing unsightly fungus growth on wood and metal is easy with **Gardex**. Fungus growth as a result of exposure to water and sunlight can be avoided as **Gardex** prevents harmful fungus from threatening the well being of you and your family.

Gloss and Semi-Gloss Finish

Gardex comes in Gloss and Semi-gloss finish to suit your taste and home decoration.

Choose **Gardex** in Gloss finish for a brilliant mirror like shine. We recommend a Gloss finish for metal or smooth surfaces.

For a classy contemporary look, choose **Gardex** in Semi-Gloss finish. Semi-gloss finish is recommended for wood surfaces or when there are imperfections on the surface.

Gloss

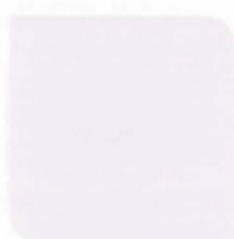

Semi-Gloss

Aquatic Motion

Aquatic Motion sparkles with the clarity of water flowing from a spring, waterfall or river. It delivers the mesmerizing effects of frozen sheets of water symbolizing stillness in motion. The mirror image of glassy and quartz water crystal projects the pureness of truth and innocence.

Painting Guide

- 1 On chalky and dusty surfaces, all loose material must be removed before painting.
- For wood surface, sand paper should be used to remove loose material.
- For metal surface, a scraper can be used to remove flaking, rust and old paint.

- 2 The substrate must be sound, clean, dry, free from dust, oil and grease before application.
- Clean the surface with water and/or soap with a brush or cloth and allow for proper drying of the surface before painting begins.

- 3 After preparing the surface, follow the recommended paint system according to the type of surface.
- Ensure adequate stirring of the paints before application.
- Allow for proper drying time before each recoating.

Drying time: 2-4 hours

Recoating time: 8 hours

Coverage: 14 m² / litre

Thinning: Dilution is not necessary. If required, dilute with Jotun Gardex Thinner (max. 5%)

Application: Brush, roller or spray

Cleaning: Clean brushes and tools with Jotun Gardex Thinner.

Please contact your local Jotun office for product specifications and availability.
