Skype for Business

Collaboration at Its Best

Take advantage of HD video conferencing and one-click screen sharing with Skype for Business. Make meetings easier than ever.

Customer success story

Lionel, Owner, Fromage Delicatessen

The busy Owner of Fromage, a local Deli chain, often out of the office meeting with customers and suppliers.

On his way to a meeting with his bank manager, Lionel gets a notification from his bookkeeper who's just updated the management reports onto OneDrive. He talks his bank manager through the latest figures and she's impressed.

Lionel pays the bill. Keeping track of receipts while out and about used to be a pain. Now it's easy. With Sage Capture, Lionel takes a photo of his receipt and files it on OneDrive.

Next Lionel needs to meet with a key customer. He jumps into a taxi, switches on his tablet and, thanks to Sage Contact, checks the agenda and account history all in one place. In the recent transaction list, he notices that the bills are always paid on time. It is time to discuss a better rate.

With Sage 50cloud, Lionel is always prepared, makes smarter decisions and the time he gets back by cutting down manual tasks, allows him to invest in developing that new home delivery service he's had in mind for months!
