

## GLP25 - the innovative and mobile laboratory / industry pump

**NEW** - easy handling drum pump for many applications

<b>Applications</b>	<b>general:</b> non inflammable liquids, acids and basis low concentrated, fluids of medium viscosity (colours, emulsions, dispersions, suspensions, oils) <b>extra liquids:</b> inflammable liquids when ATEX is not required (special laboratory conditions) pumping heavy and viscous liquids only in small quantities, motor temperature is limited
<b>Motor</b>	<b>electric:</b> max. 160 W, 230 Volt / 50 Hz
<b>delivery rate</b>	0 - 30 l/min with discharge tube
<b>pump units</b>	<b>wetted materials:</b> PP, Stainless Steel, Viton® <b>length of tube:</b> 500, 700, 1000 mm
<b>Specific features</b>	protection of utility models, immersion depth and complete drainage adjustable by o-ring,

Click-joint

different container sizes

discharge tube, on the right with nozzle

### And these are your advantages

- Faster than hand pumps
- Low costs than conventional drum pumps
- More comfortable because of the low weight

Please order your Pumpset direct here on the phone +49 93 42-9 35 16 10 or by
