

AIR CONDITIONING CLEANING COVER

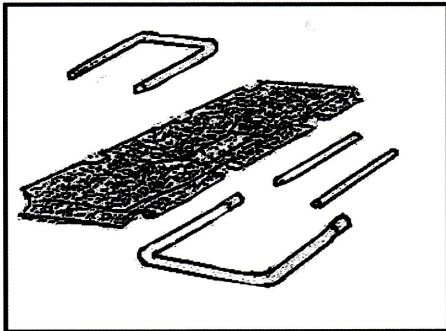

Connecting water tent

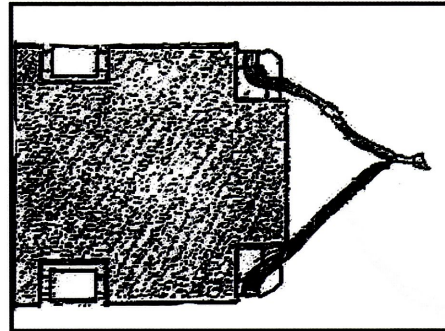

Hanging hood

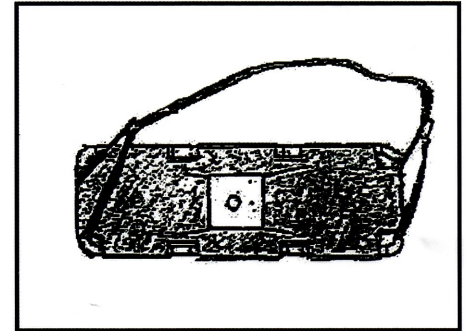

Connecting pipe x 2
U-Tube x 2
Nozzle head x 4
sling x 1

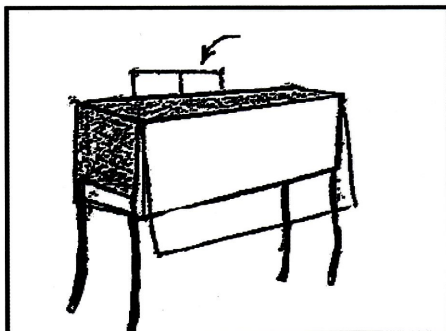

Installation procedure:
connect connecting pipe
with nozzle and U-Tube

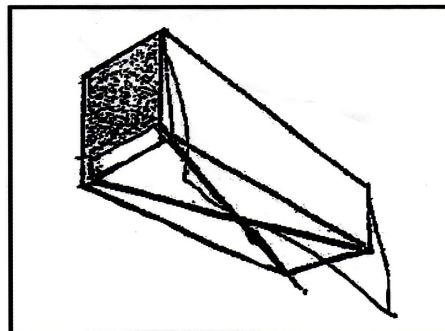

Before the left and right connecting
pipes are turned in, first put on the
sling and then install the U-Tube for
clamping. Pay attention to the left
and right triangle sling elastic buckle
assembly and transparent blank
holder plastic sheet side by side.

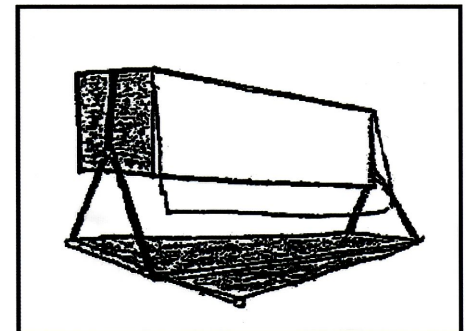

Status after the completion of
connecting the water hood

The hanging cover shall be
installed from the top of the
hanging machine. Pay
attention to inserting two
transparent crimping plastic
sheets into the gap between
the wall and the machine.

The sling of the hanging
hood is interlocked from the
lower part of the machine to
ensure stability

Finally, install the water
awning and hang it on the
top of the hanging machine
Lift the front transparent
plastic baffle to clean it.
