

ETC-420D STC-9200

ETC-420D

STC-9200

Application

Widely used in all kinds of cold storage, low-temperature freezer, kitchen refrigerator.

Main features

- ◆ Refrigeration, double controlled defrosting by temperature and time
- ◆ User menu and administrator menu set separately, Temperature upper and lower limit setting
- ◆ Multiples defrosting and fan modes
- ◆ Water-dripping time setting
- ◆ Copy-key (optional)

Specification

STC-9200

ETC-420D

- ◆ Mounting size: 71 (W) × 29 (H) (mm)
- ◆ Product size: 75(W) × 34.5 (H) × 85 (D) (mm)

- ◆ Guide rail size: TH35-7.5 (mm)
- ◆ Product size: 71(W) × 87 (H) × 58 (D) (mm)

Technical parameter

- ◆ Power supply: 220VAC ± 10%, 50/60HZ
- ◆ Temperature measuring range: -50 ~ 50 °C
- ◆ Resolution: 0.1
- ◆ Accuracy: ± 1 °C
- ◆ Compressor output contact capacity: 8A/220VAC
- ◆ Sensor type: NTC, 2M
- ◆ Shell: gray ABS flame retardant material

Wiring diagram

Accessories

- ◆ 2 probes, 1 operation instruction, 2 elastic tabs

Administrator menu

Menu level	Menu items (character type) (optional)	Parameter range	Default	Remark
User menu	SEt	Temp. min. set value ~ Temp. max. set value	-5 °C	Tem. Set parameter
	HY	1 °C ~ 25 °C	2 °C	Return difference setting
	US	SEt ~ 50 °C	+20 °C	Max. temp. set value
Administrator menu	LS	-50 °C ~ SEt	-20 °C	Min. temp. set value
	AC	0 ~ 50 min	3	Compressor delay protection
	IdF	0 ~ 120 Hr.	6	Defrost cycle
	MdF	0 ~ 255 min	30	Defrost time
	dtE	-50 °C ~ 50 °C	10 °C	Defrost termination temp.
	Fdt	0 ~ 100min	2	Water-dripping time after defrost
	t dF	0: Electric-heating defrost 1: Thermal	0	Defrost mode
	dct	0: the interval of defrosting actually 1: the accumulated time of compressor operation	0	Count mode of defrost cycle
	dFd	0: normal temp. display 1: defrost start-up temp.	0	Display mode when defrost
	FnC	0: under control 1: continuous operation, OFF when defrost 2: start/stop with compressor, OFF when defrost	0	Fan operation mode
	FDt	-50 °C ~ Fan stop temperature	-10 °C	Fan start-up temp.
	FOd	-255S ~ 255S	60S	Fan start-up delay
	FST	Fan start temperature ~ -50 °C	-5 °C	Fan stop temp.
	ALU	ALL ~ -50 °C	50 °C	Alarm value when exceed upper limit
	ALL	-50 °C ~ ALU	-50 °C	Alarm value when exceed lower limit
	ALd	0 ~ 99min	15min	Temp. alarm delay
	ot	-10 °C ~ +10.0 °C	0 °C	Temp. calibration
