

Wet & Dry Vacuum Cleaner

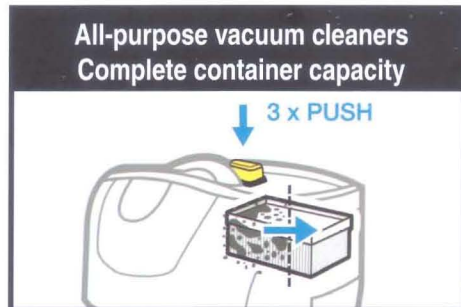

These specialty vacuum cleaners are specially designed for heavy duty cleaning jobs where there is heavy dust or powder to be cleaned. In conventional vacuum cleaners, suction power is reduced drastically over a short period due to clogged filters. With automatic filter cleaning system, these machines can work longer period with constant suction power.

Standard Vacuum

Kärcher standard vacuum comes with an washable filter which allows customer to vacuum without often changing filter. Ideal to pick up large quantities of liquid and coarse dirt. Best for restaurant, automotive, etc.

Standard Vacuum

AP System

Semi-auto filter (cleaning filter at push of a button). It provides constant high suction power and lower upkeep costs. Ideal for vacuuming liquid, wet dirt and medium fine dusts. Best for Industry, warehouse, etc

Tact System

(Triggered Action Cleaning Technology)

Auto filter clean (Filter cleans itself). It provides constant high suction power and lower upkeep costs. Ideal for liquids, coarse and fine dust with capacity for larger job. Best for Industry, construction, etc
