Dynaloc Floor Water Resistance Series panel consist of 4 layers of different materials which are heat-pressed on top of each other. Each layer has it own specific function

1. **Wear layer**
 - (aluminium oxide)
 - Highly wear, scratch resistant and strong protective layer
2. **Decorative Layer**
3. **HDF Layer**
 - High density fibre board + Anti water wax treatment
4. **Balance layer**
 - Ensure dimensional stability.
