4. Coupling Cover	1
5. Motor Assembly	1
6. Blade	5
7. Glass Shade	1
8. Assembly Kit	1

Assembly Kit

Bolt x 1	Blade Screw & Washer x 21

Receiver & Transmitter Kit

INSTALLATION INSTRUCTION

Step 1

Remove the bolt and clevis pin on the downrod and assemble the canopy, canopy cover and coupling cover through the downrod.

Step 2

- Route the safety wire, blue, brown and orange wires from the motor through the downrod.
- Fix the downrod to the shaft and insert the bolt and tighten secure with the clevis pin.

Step 3

- Remove the bolt, clevis, nut, washer and rubber pulley from the downrod. Place the rubber pulley onto the ceiling hook and fix back the bolt, clevis, nut and washer.
- Tie the safety wire across the hook and insert into the bolt and secure with washer, nut and clevis pin.

Step 4

Match the codes on the receiver and transmitter to be the same mode.

- To change the code, push the code switch up or down.
- To control 2 or more fans using 1 transmitter, set all receiver's code at the same mode with transmitter.

INSTALLATION INSTRUCTION

Step 5

Connect the brown, blue and orange wires from the receiver to the fan. Connect the red, white and green wires to the house's supply wire.

Step 6

Align the holes on the blade with motor and screw on with the screws and washers provided.

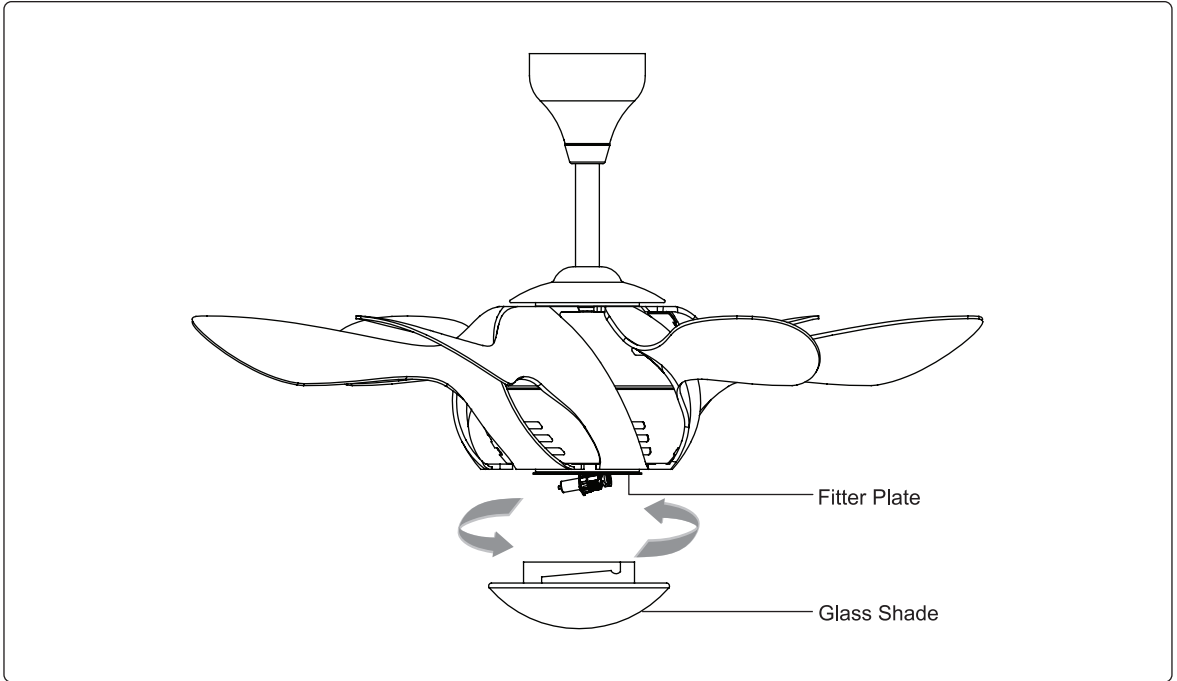

Important : Assemble the blades only after the ceiling fan is mounted on the hook.

INSTALLATION INSTRUCTION

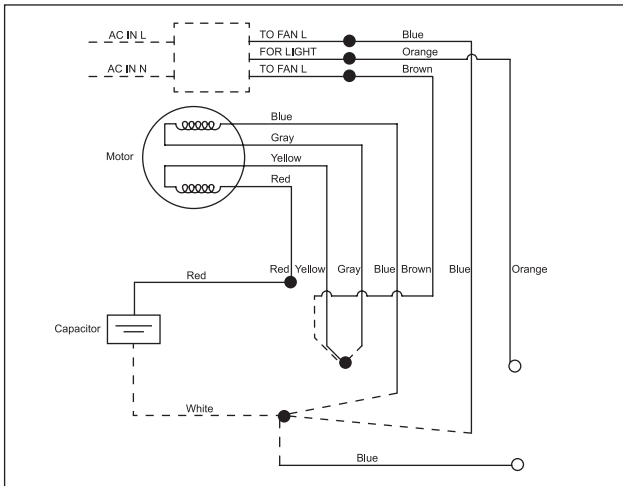

Step 7

Install the light bulbs (G9 x 2 pcs, not provided) and the glass shade aligning with fitter plate and twist in.

CIRCUIT DIAGRAM

The transmitter & receiver is incorporated with last memory function. It stores the last reading/setting on memory and when the fan is switch on again, the operation will be as the last memory/setting.

SAFETY INSTRUCTION

IMPORTANT : THIS APPLIANCE MUST BE EARTHED

CAUTION :

This product and its accessories requires regular service and maintenance carry out by qualified personnel only.

Do not place any objects in the path of the blades. Avoid raising objects or your arms near the ceiling fan.

MAINTENANCE

Due to the fan's natural movement, connections may get loose after a period of usage. To ensure a proper and safety usage, inspect the suspension system and tighten all connections every 6 months.

IMPORTANT : SWITCH OFF THE ELECTRICAL MAINS AT THE CIRCUIT BREAKER FUSE BOX.

Cleaning

Cleaning your fan periodically will prolong its new appearance. Basic cleaning procedures are as follows :

1. Use only lukewarm water. Do not use detergent, corrosive or acidic solution.
2. Damp the cloth lightly. Use only soft or lint-free cloth to clean the fan. Rough fabric will scratch the fan surface.
3. To cover small scratches, apply a light coat of shoe polish over it.
4. There is no need to oil the fan.
