

EMD 1325 - 易德数控雕刻机MD系列
EMD 1325 - ETO CNC Router-MD Series

Innovation Dual ball screw with driven nut

Ezletter CNC Router MD Series is the light model based on GR series. It has all the features of GR series, using the simple design and the welded basement. The whole machine is portable, professional-looking fashion, stable performance, and perfect cutting quality, leading the professional fashion trend of CNC routers.
