

# ADVANCED AUTOMATION CUTTING SERVICES

- Fiber Laser Cutting
- Laser Cutting
- Diamond Polish
- CNC Router Cutting
- Panel Saw
- Bender Service

Enigma installed a variety of different power machines which can provide perfect cutting services for your business or project needs.

### WHY LASER CUT?

Laser cutting is a precise method of cutting a design from a given material using a CAD file to guide it. This involves firing a laser which cuts by melting, burning, or vaporizing your material. You can achieve a really fine level of cutting detail with a wide variety of materials.

### HAVE NO MATERIALS?

Don't worry, we've got you covered! Enigma also provides a different range of materials that help you save cost, save time, and most importantly can fulfill your requirements!

#### Fiber Laser Cutting

Metal Etching Stainless Steel

#### Laser Cutting

Acrylic Acrylic Mirror Wood

#### Diamond Polish

#### CNC Router Cutting

Acrylic PVC Foamboard ACP MDF Board Plywood Polystone etc.

#### Panel Saw

Safe Speed 90degree Precise

#### Bender Service

3D Lettering
