Revo[®]

Auto Laminator

LAMI Revolution

Revo[®]

By processing and cutting automatically, it allows overwhelming productivity

Auto laminator "LAMI Revolution "series can laminate and cut all automatically by one-touch. With the compact size, simple operation and speed perfect for office, work efficiency improves much higher. In addition, we can also prepare models that can handle a wide range of document sizes such as large sized posters, and cutting left and right side.

Why popularity "LAMI revolution series"

Just push the button and that's it.

No need to always stand aside the laminator, you can laminate as many as you want by simply pressing the button.

Open mechanism allows. Easy maintenance and cleaning.

You can clean internal clogs and glue from film by yourself.

Not only feeding and laminating, But also equipped with an internal cutter that automatically cuts.

Can correspond to various margin sizes with the intend cutter that can set front & rear margin.

Revo is absolutely fast and easy.

Manual laminator	Auto laminator
Put the manuscript into the film.	Put the document.
Set in the laminator.	Press start button.
Repeat the above process.	Just wait.
Takes time and labor because it repeats by manual work.	Able to do the other work while waiting!

The big difference between manual laminator and Revo, with in 1 hour.

Revo-Office

Size and design are elegant so perfect for office.

Design and size that fits the office allows you to laminate whatever you want, whatever you need with good quality.

Very easy operation by just fitting the cassette.

By the industry's first cassette laminating method, until now anyone can easily exchange film which was a troublesome work. (PAT.P)

Anyone can operate easily with the easy-use operation panel.

Anyone can use it with a simple operation procedure. "Start", "Stop", and functions such as setting the number of sheets can be set easily by simple operation.

LAMI Revolution series

Revo-Office

The industry's first cassette laminating system adopted (PAT.P)

HOT	ROLL	Max.width A3	Max. Film thickness 125 μ	Full automatic type
-----	------	-----------------	---------------------------------	---------------------------

- Reducing labor cost by full automation.
- Simple operation LCD panel.
- Excellent quietness for office use.
- Excellent design, perfect for office.

Auto Atlas-14T

Achieve outstanding speed and compactness

HOT	ROLL	Max.width A3	Max. Film thickness 125 μ	Full automatic type
-----	------	-----------------	---------------------------------	---------------------------

- Efficient work by full automation.
- Easy cleaning with an open mechanism.
- High speed realized by W heater method.
- Productivity to finish A4 size 100 sheets within 14 minutes.

Auto Atlas-26

High speed auto laminator for A1 size

HOT	ROLL	Max.width A1	Max. Film thickness 250 μ	Semi automatic type
-----	------	-----------------	---------------------------------	---------------------------

- Side cutter for various sizes.
- Amazing speed as fast as 4.5 m / min.
- Speed realized by W heater method.
- Increase work efficiency by automatic paper feeding function.
