

ATLANTA

Air-cooled DIESEL GENERATOR

FEATURES:

- Engine and Generator rest on inclined rubber blocks. This improved mounting systems.
- Built with Easy to start light-pull recoil starter.
- Large silent muffler and efficient air cleaner system reduce the exhaust and the intake of noise.
- Large fuel tank ensures hours of continuous running.
- Compact in structure and convenient for carry and transport. Enable quick and safe engine inspection and maintenance.
- Emergency low oil shutdown system is equipped. It will stop the engine immediately if the lube oil level drops below a safe level.

CED 4000L

Technical Specification:

Model		Open Frame Type
		CED 4000L
GENERATION	Type	Brushless, self-excited, single phase
	Frequency (Hz)	50
	Max. AC Output (kVA)	3.0
	Cont. AC Output (kVA)	2.6
	Voltage (V)	240
	Power Factor	1.0
ENGINE	MODEL	CF 178F
	Type	Single cylinder, vertical, 4-stroke air-cooled diesel Engine.
	Displacement (cc)	296
	Starting System	Recoil
	Fuel Tank Capacity (L)	12.5
	Operational Capacity (hr)	9
UNIT	Weight (kg)	65
	Dimensions (LxWxH) (mm)	680x455x535
