

BLOCK CUTTER

TOKU BC-series Block Cutter will cut most paving materials available on the market made from concrete, clay, stone, granite, etc.

The cutting height is adjustable by a hand operated adjustment screw, which allows the sprung stop blade to fit snug to the tile surface. The canter lever action causes the cam to apply a uniform & central pressure which ensures that the machine is stable whilst in operation.

The hardened steel blades produce clean and perfect cuts, quickly and efficiently as well as having a long life.

BC-14

BC-14

Technical Specification

Model	BC-14	BC-18
Block Width	380mm	450mm
Block Dimension (L x W x H) (mm)	22 x 22	29 x 29
Block Thickness (mm)	10 – 100mm	10 – 145mm
Weight (kg)	49	60
Dimension (L x W x H) (mm)	1010 x 270 x 550	1600 x 300 x 550
