## SCREED PUMP

The SPZ-500 Floor Screed Machine is designed to mix and deliver fine concrete aggregate in a 500 litres mixing chamber. The machine is also suitable to deliver dry & semi dry mortar, micro concrete, polystyrene, gravel, sand, clay and other bulk construction material up to 25mm diameter. With Air Compressor required at minimum output of 4m<sup>3</sup>/min at 7 bar, the machine can pump up to 100 meters height.

### Features:

- Large Mixing Vessel of 500 liters capacity allows for longer delivery interval and output up to 4m<sup>3</sup> per hour.
- Using powerful 25hp Electric Motor with star delta circuit limit the starting current surge, ensure long life of electric motor and prevents triggering of the fuses.
- Thick wear plate and heavy duty mixing paddle ensure longer life for wear and tear.
- Safety Switch, operational switch, safety valve at operator convenience.
- With transport wheel on the machine for easy transportation.

Model	SPZ-500
Maximum Volume	500L
Output	Up to 4m <sup>3</sup> /h
Pressure	7 Bar, using external Air Compressor 3m <sup>3</sup> /min above.
Power (kW)	18.3
Voltage	415v, Three Phase
Weight (kg)	1070
Dimension (LxWxH) (mm)	2400 x 800 x 1200
