

Topic: You've been employed as a Network Engineer at a new company. Previously, there was an incident at the organization where one of the apps crashed and caused a lot of problems due to a lack of quality assurance in that app. Your manager has asked you to make a suggestion to solve and avoid the crashing App issues from happening again. What kind of testing are you going to do before releasing your software on the market?

Objective: Students will learn and understand the cloud testing environment concept

Time: 20 minutes to discuss in breakout room

10 minutes to present by group leader

Answer:
