ADVANCED SERVER SUPPORT II
PROFESSIONAL DEGREE IN IT SUPPORT

You're working as a Network Engineer at SBIT. You're noticing there is an IP conflict (same IP address assigned to multiple device) detected in your system. To verify, you're enquiring using Window Server to see the duplicate IP address of multiple devices. You're checking all the devices physically and none of them set as a static. There is no multiple DHCP server in your system. Based on your opinion, what do you think is the main root cause for these issues.

OBJECTIVE:

Students will learn and understand the concept of DHCP.

TIME ALOCATED:

20 mins - discussion in the breakout room

10 mins - presentation by the group leader
