**GROUP DISCUSSION 8: ABSTRACT**

**QUESTION:**

What are the similarities and differences between abstract class and interface in C#.

**OBJECTIVE:**

Students will learn to choose between an abstract class and an interface based on whether they need shared implementation/state (abstract class) or a pure, flexible contract that supports multiple implementations (interface).

**TIME ALOCATED:**

20 mins - discussion in the breakout room  
5 mins - presentation by the group member
