GROUP DISCUSSION 13: ENUM

QUESTION:

Why is it better to use an enum instead of a string or int when representing fixed values such as Traffic Light colors, Days of the Week, or User Roles?

OBJECTIVE:

Students will learn and understand how enums improve code safety, readability, and reliability when working with fixed sets of values compared to using strings or integers.

TIME ALOCATED:

20 mins - discussion in the breakout room

5 mins - presentation by the group member
