

BEVELERS

These are professional tools for bevelling the ends of plastic pipes up to Ø 250 mm, that will be inserted into electrical couplers or plug-in joints.

The **SME 0**, **SME 1** and **SME 2 PLUS** bevelers are made in a special Aluminium alloy.

The special shape of the blades and the non-stick coating (PTFE) of the walls, allow a quick and easy bevel of the pipe.

SUPPLIED WITH

All models are supplied with:
