

Your Strategic Business Partner

# About Us

- **ELSO Technologies**

- a leading industrial distributor focuses on products from electrical & mechanical parts, maintenance tools, test & measurements instruments and perishable material.
- committed in providing technical, logistics and service excellence to our customers
- maintain suppliers, brand focus and market share for our franchise partners
- Specialise in factories, labs and manufacturing lines set up.

- **Our commitment**

- customer satisfaction, continuously adapting ourselves to the opportunities and dynamic of business, by remaining a consistent and reliable provider of leading edge technology solutions to customers, backed by other support services.

- **Valuable partnership**

- in-depth knowledge of the relevant markets
- demand creation and nurturing a creative, challenging, and empowered professional environment for our team members

# Company Profile

Company Name	ELSO Technologies Sdn.Bhd. (816123 A)
Subsidiaries	ELSO Technologies (KL) Sdn Bhd ELSO Technologies Pte Ltd (Singapore) ELSO Network Sdn Bhd ELSO Services Sdn Bhd
Nature of Business	Sales, marketing & service of all kind of electronics, electrical and mechanical products, industrial supply, engineering products, metal stamped parts, spare parts components, precision tooling & instrument, machinery & equipment.
Tel & Fax No.	Tel : +604-630 1166 Fax: +604-630 1168
Email address	<a href="mailto:sales@elsotech.com">sales@elsotech.com</a>
Website	<a href="http://www.elsotech.com">www.elsotech.com</a>
MOF License	357-02157784
Date of In corporation	2-May-2008
Authorized Ordinary Share Capital	MYR 500,000.00
Paid-up Ordinary Share Capital	MYR 500,000.00
Revenue	RM 13 million (2020)

## Range of Products

# Industrial Thermal Imagers

**PROFESSIONAL THERMAL IMAGING CAMERA**  
WITH TOP PERFORMANCE IMAGE  
AND FULL ANALYSIS

**G40 G60**

**SERIES G**

The image shows two handheld thermal imagers from the G series. One is a larger model (G60) and the other is a smaller model (G40). Both have color displays showing thermal images. The background is a dark, industrial setting with power lines.

**COMPACT EASY TO USE**  
THERMAL IMAGING CAMERA  
FOR DAILY OPERATION

**B1L B10  
B2L B20**

**SERIES B**

The image shows two handheld thermal imagers from the B series. They are compact and handheld. The background is a dark, industrial setting with power lines.

**E1L**

**SERIES E**

Resolution Thermal  
160×120

Temperature Measurement  
Range  
-20 °C to 550 °C

The image shows a person in a blue shirt holding a handheld thermal imager from the E series. The imager's screen displays a thermal image. The background is a server room with racks of equipment.

**M10 M30**

**SERIES M**

Resolution Thermal  
160×120(M10)  
384×288(M30)

Temperature Measurement  
Range  
-20 ~550 °C

The image shows a handheld thermal imager from the M series mounted on a metal structure. The background is a cloudy sky with power lines.

# Measuring Instruments

# Mitutoyo

# Sensors for Test & Measurement

## Honeywell

### SENSING & IOT

Sensors

Airflow, current, displacement, force, heaters, hour meters, humidity, infrared, magnetic, position, pressure, proximity & temperature.

Switches & Controls

Electromechanical switches in a wide range of styles: snap-action, limit, toggle & more. Applications include sealed and hazardous location.

Test and Measurement Products

Pressure transducers, load cells, torque transducers, LVDTs, accelerometers, and instrumentation for test and measurement applications.

Barcode Scan Engines, Modules and Decoding Software

Barcode scan engines, scan modules, & decoder boards. SwiftDecoder™ barcode decoding and character recognition software

# Precision/Bench/Floor Scales, Centrifuges, Shakers, Water Analysis Meters & Electrodes, Moisture Analyzer,

# Major Setups and Projects

- Inokom Kulim (Mfg and Facility setup)
- Universiti Sains Malaysia-AMDI (Electrical Dept Setup)
- Lake Region Medical/Accellent Manufacturing (Plant setup)
- National Instruments (Plant setup)
- Flex Systems Penang/Bose Systems Malaysia (Plant setup)
- HP Batu Kawan (Plant Setup)
- Polycore JB (Plant Expansion)

**“I found, initially, it’s quite difficult locating a suitable supply chain partner that held a high degree of working standards as well as accountability. By your actions and determination, you have made our vision possible” – Bill Montague (COO of Accellent Manufacturing)**
