Battery

Dual-Layer Energy Trivet

The dual-layer design concentrates heat and reduces heat loss for cooking efficiency.

Cooking Timer

Enjoy peace of mind with a timer that can be set for up to 3 hours.

Titan Flame

Delivers powerful heat with a perfect flame level for every dish.

Matte Tempered Glass with Nano Protection

A touch of elegance enhanced with nano coating to easily repel dirt and water.

Flame Failure Device

Automatically cuts off gas flow if the flame gets extinguished.

Sealed Burner

Prevents any spilled liquids from seeping into the burner for easy maintenance.

Zenne is a gas appliance brand established in 2005 as a subsidiary of Kein Hing International Berhad. We are widely regarded as a manufacturer of one of the highest quality gas cookers in Malaysia. With the innovative technology in our range of home and kitchen appliances, we have built a prominent presence in Southeast Asian markets.

Safety

Safety Valve

Equipped with a flame failure device that automatically cuts off gas flow if the flame gets extinguished (selected models only).

Strong Body Structure

Capable of supporting up to 80kg and designed to prevent pots and pans from toppling over in case of accidents (selected models only).

Durable Parts

We use materials that are resistant to extensive wear and high heat, effectively lasting for years.

Strict Quality Control

Stringent measures are put in place at every stage to ensure top-notch quality in our finished products.

Easy Maintenance

Each part is assembled with consideration for effortless cleaning and maintenance.

Health

Clean Air

Our gas cookers release almost zero amount of carbon monoxide (CO) for healthier air quality in your home.

SIRIM Certified

All our products are certified with SIRIM to provide peace of mind for you and your family.

Environment

Energy Efficiency

Our signature Twister Eco-Flame is able to transfer maximum heat energy to your cookware in the shortest time.

Cooking Efficiency

Enjoy up to 33% faster boiling time in comparison to the conventional cooker.
