LA HERBALLE HISTORY :

Proudly Malaysian Brand, Japanese Technology.

La Herballe was born out of relentless concern to find suitable skincare for highly sensitive, acne damaged & scarred skin experienced by its founder, Madam Jacqueline (MJ).

Firstly discovered more than 30 years ago in Japan where it's of natural centuries old ingredients that are high in anti-oxidants necessary for skin health. MJ brought its technology to Malaysian soil and with it the birth of **La Herballe** which becomes the pioneer, symbol for high quality and effective natural skin care, that has benefited lots of Malaysian since 2004.

As **La Herballe** continued to expand its usage in clinics, medspa and salons by doctors, medical practitioners and therapists, **La Herballe** skincare has grown to not only giving your skin the best but for fulfilling our commitment to you in.....

“Gifting you the BEST version of your SKIN...”
