ABOUT Bosspack Engineering

Bosspack Engineering Sdn Bhd is a company who specialise in manufacturing automatic labelling machine. Bosspack Engineering Sdn Bhd was established in 2000 and we have over 16 years' of experience in the manufacturing industry. To ensure Bosspack Engineering's machine quality, most of our materials are made from stainless steel and aluminium alloy.

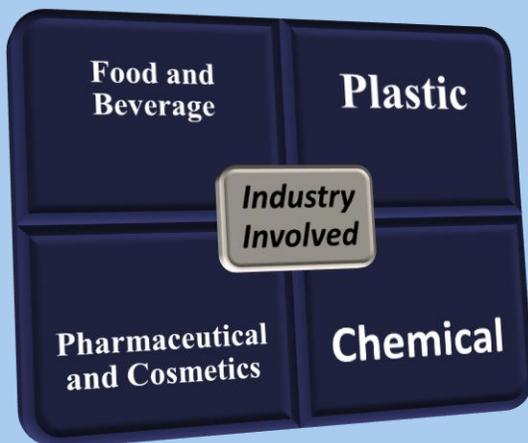

Specialise

We specialise in:

- Customising automatic labelling machine
- Contract labelling
- Printing all kinds of self-adhesive labels

Industry intersect

Labelling machine is used to directly put labels on the packaging or product automatically. Bosspack Engineering's machine is customised to meet customer requirement. Therefore, most of the bottle or packing shape are able to apply in our labelling machine.

Automatic Wrap-Around Labelling Machine

Description

Our automatic wrap-around labelling machine is designed for rounded bottle. This machine can run any kind of rounded bottle. Product with round bottle such as sauces, juice, edible oil and etc can use this machine.

Technical Specifications

Main Drive Motor	Servo Motor or Clutch and Break System
Labelling Output (Speed)	40-100 bottles/min
Accuracy	± 1mm
Product Size	Height: 20mm-230mm, Diameter 20mm-160mm*
Machine Size (L*W*H)	2500mm x 1150mm x 1150mm (depending on requirement)
Voltage	220 VAC / 50 Hz Single Phase
Optional	Hot Foil Printer; Collecting Turn Table; pneumatic system

*depending on product

❖ Bosspack's machine is made up of stainless steel and aluminium alloy.

Mini Conveyor Wrap-Around Labelling Machine

Description

Our mini conveyor wrap-around labelling machine is designed for rounded bottle. Our machine has the technology to label at a specific position of the product. We use pneumatic system to enhance the accuracy of label position and to maximise the level of accuracy. Mini conveyor wrap-around labelling machine is suitable for small bottle like cosmetic product. This machine can be operated easily with low maintenance needed.

Technical Specifications

Main Drive Motor	Servo Motor or Clutch and Break System
Labelling Output (Speed)	40-100 bottles/min
Accuracy	± 1 mm
Product Size	Height: 20mm-230mm, Diameter 20mm-160mm*
Machine Size (L*W*H)	1500mm x 1200mm x 1100mm (depending on requirement)
Voltage	220 VAC / 50 Hz Single Phase
Optional	Hot Foil Printer; Collecting Turn Table

*depending on product

❖ Bosspack's machine is made up of stainless steel and aluminium alloy.

Automatic Front & Back Labelling Machine

Description

Our front and back labelling machine is to label two different labels in a product. Front & back labelling machine also can label on one side of a product. Front & back labelling machine has a wide range of flexibility to find the label position and direction to meet customer's product specification. Products such as glass and plastic bottle, jerry can, tablet bottle and etc. are suitable for this machine.

Technical Specifications

Main Drive Motor	Servo Motor or Clutch and Break System
Labelling Output (Speed)	40-150 bottles/min*
Accuracy	± 1mm
Label Size	Height: 250mm (Max)
Machine Size (L*W*H)	2500mm x 1400mm x 1640mm (depending on requirement)
Voltage	220 VAC / 50 Hz Single Phase
Optional	Hot Foil Printer; Collecting Turn Table

*depending on product

❖ Bosspack's machine is made up of stainless steel and aluminium allo

Automatic Side Labelling Machine

Description

Automatic side labelling machine is designed to label on one side of a product. Product such as square bottle, box, plastic food container and etc. are suitable for this machine. Automatic side labelling machine can be further modified to label round bottle and become a multi-task labelling machine.

Technical Specifications

Main Drive Motor	Servo Motor or Clutch and Break System
Labelling Output (Speed)	40-100 bottles/min
Accuracy	± 1 mm
Product Size	Height: 20mm-230mm, Diameter 20mm-160mm*
Machine Size (L*W*H)	2000mm x 1050mm x 900mm (depending on requirement)
Voltage	220 VAC / 50 Hz Single Phase
Optional	Pneumatic system; Hot Foil Printer; Collecting Turn Table

*depending on product

❖ Bosspack's machine is made up of stainless steel and aluminium alloy.

Automatic Standalone Labelling Machine

Our standalone labelling machine is designed to connect with customer's existing conveyor. This machine is also suitable for independent operation. This machine is custom made according to customer's requirement. There are 2 types of standalone labelling machine:

- (i) Side standalone labelling machine is designed to label on one side of a product;
- (ii) Top standalone labelling machine is design to label on surface of a product. Top standalone labelling machine also can label on top of round bottle. For example, security label and stamp label. This machine can be operated easily with low maintenance needed.

	Standalone Labelling Machine	
	Standalone Side Labelling Machine	Standalone Top Labelling Machine
Label Direction	Side	Top
Label Size	Height: 250mm (Max)	
Labelling Output (Speed)	40-100 pcs/min*	
Accuracy	± 1mm	
Machine Size (L*W*H)	According to customer's requirement	
Voltage	220 VAC / 50 Hz Single Phase	
Main Drive Motor	Servo Motor or Clutch and Break System	

*depending on product

❖ Bosspack's machine is made up of stainless steel and aluminium alloy.

Automatic Top Labelling Machine

Description

Automatic top labelling machine is designed to label on the surface of a product. This machine is suitable for all kinds of packaging product such as boxes, plastic, aluminium foil and etc. Automatic top labelling machine is easy to use and less maintenance needed.

Technical Specifications

Main Drive Motor	Servo Motor or Clutch and Break System
Labelling Output (Speed)	40-100 bottles/min*
Accuracy	± 1 mm
Label Size	Height: 250mm (Max)
Machine Size (L*W*H)	1500mm x 550mm x 1800mm (depending on requirement)
Voltage	220 VAC / 50 Hz Single Phase
Optional	Hot Foil Printer; Collecting Turn Table

*depending on product
