

# ISOCHEM 630 DEGREASING SOLVENT

## PRODUCT DESCRIPTION

Isochem 630 is a highly effective degreasing solvent which quickly and easily remove dirt and grease from surfaces.

---

## PHYSICAL PROPERTIES

Appearance	: Clear liquid
Base	: Mixture of Chlorinated solvents
Specific Gravity	: 1.30 - 1.36
Water Rinsability	: Soluble in about 50 parts of water

---

## APPLICATION

Used as supplied. Do not dilute or add water or solvent to it. Substrates can be dipped or soaked in tank. Cover tank to avoid fast evaporation of solvent.

## WASTE AND DISPOSAL METHOD

Dispose by dipping where solvent evaporation can occur safely. For large quantities consult a reputable waste disposal company.

In case of material release or spillage- absorb into sand, absorbent materials or earth. Do not let the flow of liquid into drains or sewers.
