

UE402

Functionality upgrade for C4000

SICK
Sensor Intelligence.

Technical data overview

Safety level	PL e, SIL 3, Type 4
Applications	Functionality upgrade
Compatible sensor types	C4000 safety light curtains
Description	Upgrades the C4000 Standard, Advanced, Palletizer, Entry/Exit, and Fusion to include the functions defined in the technical specifications, e.g., bypass, operating mode switching, and PSDI in the case of C4000 Standard, Advanced.

Product description

The UE402 switching amplifier upgrades the C4000 safety light curtains to include the bypass, operating mode switching, and PSDI functions.

At a glance

- C4000 Standard: Bypass, operating mode switching, PSDI
- C4000 Advanced: Bypass, operating mode switching, PSDI
- C4000 Fusion: Bypass, operating mode switching
- C4000 Palletizer: Bypass, operating mode switching
- C4000 Entry/Exit: Bypass, operating mode switching

Your benefits

- Higher productivity through new functions

Fields of application

- Factory automation

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
